Draft Rules regulating the supply of filtered water to private premises for domestic purposes in the Dum-Dum Municipality.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water supply, they may allow any owner or occupier of a holding, paying a water rate imposed under the provisions of Chapter V of the Bengal Municipal Act, 1932, on the annual value of such holding, when such annual value is not less than Rs. 240 to lay down communication-pipes from the service pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes or requiring any addition or alteration to an existing water supply must apply for the same on a printed form to be supplied, free of cost, at the Dum-Dum Municipal Office and shall deposit with the application, the sum of Rs. 5 which will be returned to him if within six months of the date of application, he has paid the fee of Rs. 50 prescribed in rule 2 and which otherwise will be forfeited to the Commissioners.

2. A fee of Rs. 50 must be paid to the Commissioners of the Dum-Dum Municipality by such owner or occupier for each connection to a municipal main supply pipe or a common communication-pipe laid in accordance with rule 3, before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below each holding must have a separate connection to the municipal main supply pipe and extensions from the communication-pipe of one holding to another holding shall not be permitted:

Provided that with the consent of the Commissioners of Dum-Dum Municipality in meeting connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding:

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners of the Dum-Dum Municipality are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required

must pay the entire cost of the connection including the supply and fixing of the fittings referred to in rule 7 and must also pay the costs of such alterations in or repairs to roads, drains, sewers, gas or water mains or pipes and the cost of such other works as may be necessitated by or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners of the Dum-Dum Municipality, pay the entire costs of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into satisfactory condition or which may be necessitated by any change in municipal water works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners of the Dum-Dum Municipality either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1) except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings:—

(b) A galvanized iron communication-pipe from the ferrule to the meter;

(c) A stop-cock and its surface-box;

(d) A meter with the masonry-box complete with locking arrangement;

(e) Service pipe from the stop-cock to the taps; and

(f) Taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicate of standard samples kept in the office of the Commissioners of the Dum-Dum Municipality and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the Dum-Dum Municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fittings for the approval of the Chairman of the Dum-Dum Municipality and any fitting so presented, may, if considered satisfactory by the Chairman, be stamped and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection when fitted in position must be capable of standing a pressure of 150 feet and no water shall be supplied until it has stood such a test applied by the Commissioners of the Dum-Dum Municipality.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (a) and (b) of rule 7 and the number of taps shall be fixed in accordance with the annual valuation of the holding as follows:—

Annual value of holdings.		Sizes of ferrules.	Diameter of communication-pipe.	No. of taps.

From Rs. 2,000 and over an extra tap for every additional Rs. 1,000 and when the Commissioners are satisfied that it is necessary for the proper supply of such extra taps a corresponding increase in the size of ferrule or tee piece on the municipal main and in the diameter of communication-pipe.

11. (1) On every communication-pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(3) Stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

16. (a) Every owner or occupier of any holding, in respect of which a connection has been made, under these rules, shall be entitled for each quarter, to a supply of 1,350 gallons of water per quarter for each rupee paid by him for the premises in water-tax,

(b) for all water in excess of the amount allowed under clause (a), such owner or occupier shall be charged at the rate of Rs. 1-4 per 1,000 gallons.

(c) if the owner or occupier of the holding touches or interferes with the meter of his holding in any way except with the permission of the Chairman of the Dum-Dum Municipality or wilfully or negligently injures or damages it;

(d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will in the opinion of the Chairman of the Dum-Dum Municipality endanger the water supply in the neighbourhood;

(e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same;

(f) if the owner or occupier of the holding constructs or fixes in connection with the water supply any cistern, tank, reservoir, tap, pipe or any other work not authorised by these rules;

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

Amendment of
the Second
Schedule, Act
VIII of 1894.

16. In Item No. 243 of the Second Schedule to the Indian Tariff Act, 1894, to the entry in the second column the following proviso shall be added, namely:— VIII of 1894.

“Provided that mechanical lighters as defined in the Mechanical Lighters (Excise Duty) Act, 1934, shall be of 1934.
liable in addition to a duty equal to the amount of the excise duty imposed by that Act on mechanical lighters manufactured in British India.”

STATEMENT OF OBJECTS AND REASONS.

There is a serious danger that, with the imposition of a considerable duty on matches, there will be an abnormal development of the use of mechanical lighters. This would mean a loss of duty and interference with the business of the Indian match manufacturing industry. It is therefore proposed that an appropriate excise duty should be imposed on mechanical lighters and that the customs duty should be correspondingly enhanced. There is not, as yet, any established industry in the manufacture of mechanical lighters in India.

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this Bill is to amend the Indian Army Act, 1911, in order to provide for the changes in the constitution of the Indian Army rendered necessary by the progressive Indianization of the Defence Forces of India.

A new class of Indian officer commissioned from the Indian Military Academy is about to appear. These officers, whom it is proposed to designate "Indian commissioned officers", will possess with respect to the Indian Army all the powers and privileges of the British officers whom they will gradually replace.

The British officers of the Indian Army are subject to a British Statute, the Army Act (44 and 45 Vict., C. 58), while the Indian personnel of the Indian Army, by virtue of section 180, sub-section (2), of the Army Act and section 65 (1) (d) of the Government of India Act, is subject to the provisions of the Indian Army Act. It is now proposed so to amend the Indian Army Act that complete provision for the whole Indian personnel of the Indian Army, including this new class of officer, shall be contained in the Indian Army Act, in the same way that provision for the Indian Air Force is contained in the Indian Air Force Act, 1932.

In order to distinguish this new class of officer from the officers at present designated "Indian officers" in the Act it is proposed that the officers at present designated "Indian officers" shall in future be known as "Viceroy's commissioned officers".

The opportunity presented by the Bill has been utilised to introduce certain minor amendments throughout the Act.

NEW DELHI;

The 4th April, 1934.

NOTES ON CLAUSES.

Clause 3 (b).—Indian commissioned officers will be treated on the same lines as British officers as regards punishment, retirement or removal from the service. Such clauses as 3 (b), 14 (a), (b), (d), (e) and (f), 15, 16, 19 and 39 make the necessary provision for this purpose.

Clause 5.—Definitions of the two classes of Indian officer have been introduced in section 7, and the definition of "British officer" has been revised. Such clauses as 2, 3 (a), 4, 5, 8, 10, 14 (a), 21, etc., give effect to the necessary consequential changes throughout the Act.

Clause 6.—This amendment clarifies the intention of section 10.

Clause 7.—This amendment of section 13 provides for the dismissal of any person subject to the Act by the Governor General in Council, and the dismissal of any person other than an Indian commissioned officer by the Commander-in-Chief in India. As Indian commissioned officers will hold commissions signed on behalf of His Majesty by the Governor General, the power of dismissing such officers will be delegated to the Governor General by His Majesty.

Clauses 9, 14 (b), (c), (d), (e) and (f), 17, 27, 28 and 38 make the necessary provision for the punishment and protection of warrant officers subject to the Act.

Clause 11.—This amendment is consequential on the introduction of a new section 117A (*vide* clause 41).

Clauses 12 and 13.—Following the policy adopted in the Indian Air Force Act (Act XIV of 1932), section 41 is amended so as to enable all civil offences committed by persons subject to the Act to be tried by a court-martial with the exception of offences of murder or culpable homicide committed against persons not subject to the Act, or of rape. These offences will not only be triable by a court-martial if committed on active service or on certain frontier posts to be notified by the Governor General in Council.

Clause 19.—Penal deductions from the pay of Indian commissioned officers have been provided for by this amendment. The new sub-section (1) of section 50, as now amended, will follow almost exactly the provisions of section 137 of the Army Act, which deals with deductions from the pay of British officers. Clause (e) of the proposed sub-section is necessitated by the form of section 43 of the Act and is intended to cover such forfeitures as those referred to in clause (h) (i) and (iii) of that section.

Clauses 20, 23 and 25.—Provision is here made for the appointment of Indian commissioned officers on general, summary general and district courts-martial.

As the general and summary general courts-martial under the Act will now have power to try Indian commissioned officers, whereas previously they have had no power to try any person of higher rank than an Indian officer, a period of three years' commissioned service has been required to qualify an officer to sit on a general court-martial. This follows the corresponding provision in section 48 (3) of the Army Act.

Clauses 22, 24, 26, 30, 31 and 42 introduce consequential changes made necessary by the amendment of section 57 by clause 20.

Clauses 29, 33 and 37 are consequential on the omission of section 42 by clause 13.

Clause 32.—The change here made is intended to enable the responsible officer to summon necessary witnesses for military inquiries, as well as for courts-martial.

Clauses 34, 35 and 36.—It is proposed to remove the present restriction whereby all simple imprisonment is to be carried out in military custody. Such a restriction would be obviously undesirable in the case of an Indian commissioned officer so sentenced.

Clauses 40 and 41.—The right of Indian commissioned officers to complain to the Governor General in Council has been specifically bestowed by the new section 117A.

I. *Cancel* Rule 7, Chapter V, General Rules and Circular Orders, Civil, Volume I, with notes thereunder and *substitute* therefor the following:—

- (1) In the localities only where and for the periods during which travelling except by boat is in the opinion of the District Judge impracticable, the fees chargeable for the service of processes shall be increased by such percentage not exceeding 25 per cent. as may be necessary to cover the additional cost of boat hire or ferry-toll for journey in watery areas. The percentage of surcharge over the fees ordinarily

leviable should be reduced when the realisation of the higher amount is found to exceed the additional cost incurred.

- (2) The Judge in charge of the Nezarat at every station shall in consultation with the presiding judges of other courts prepare a list of areas, localities or villages within the jurisdiction of the Nezarat where and for the periods of the year during which travelling except by boat is impracticable. A copy of the list when approved by the District Judge shall be sent by the Judge in charge to each court at the station and the Secretary of the local Bar Association in sufficient time before the advent of the period from which the surcharge is to be levied. The list should be altered or modified from time to time when the state of the country renders it necessary and all changes should be notified in the above manner.
- (3) The fees leviable from the parties on account of boat-hire should be realised in court-fee stamps affixed on a separate sheet of paper containing the number, etc., of the case in which the fees are filed and the name, description and residence of the persons on whom the processes are to be served.
- (4) The sheet containing the process fee so levied after being duly defaced and punched should be made over to the peon along with the processes to be served, who will make his own arrangement for boats. After effecting service the peon should submit a bill for his expenses up to the value of the court-fees accompanied by the process-fee sheet and other vouchers in support of his bill which will be carefully checked by the Nazir with reference to his diary and eventually passed for payment in the usual way after examination by the Judge in charge.

Note 1.—A consolidated bill may be submitted by a peon enclosing several process-fee sheets relating to the service of processes effected by him in one trip.

Note 2.—The process-fee sheets should be endorsed across or stamped "paid" and initialled by the Judge in charge before the bills are passed.

II. In line 1 of Rule 8 (a) *ibid.*, for the words "In such districts or parts of districts as are" *substitute* the words "In the localities as are".

PART IV

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 1260L.C. — 2nd June, 1934. — The following report of the Select Committee on the Bengal Muhammadan Marriages and Divorces Registration (Amendment) Bill, 1934, with the Bill embodying amendments recommended by the Committee, is hereby published for general information:—

Report of the Select Committee on the Bengal Muhammadan Marriages and Divorces Registration (Amendment) Bill, 1934.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Muhammadan Marriages and Divorces Registration (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 9th January, 1934, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed. All matter recommended to be omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in English in the *Calcutta Gazette* of the 28th September, 1933.

3. We do not consider that the Bill has been so altered by our recommendations as to require republication.

4. The Committee met for the first time on the 24th January, 1934, and concluded its sittings on the 13th March, 1934.

5. The more important changes made in the Bill are as follows :—

Clause 1.—We have altered the figures “1933” to “1934.”

Clause 3.—We have substituted the words “marriage” and “marriages” for the words “re-marriage,” and “re-marriages,” respectively, in this clause and in any other clause in the Bill where the word or words occur, as being unnecessary on the ground that marriage includes “re-marriage.”

We have also substituted the expression, “*Talaq-i-Tafweez*” for the expression “*Talaq-i-bilyad*” in this clause and in the other clauses in the Bill where the expression occurs, as we are advised that the former is the more correct name for the kind of divorce contemplated in the Bill.

The word “effected” has been substituted for the word “secured” in this clause and throughout the Bill, as being more appropriate.

Clause 4 and new clause 4A.—We have omitted clause 4(b) and the proposed second proviso in clause 4(d) and incorporated them in the new clause 4A, with certain modifications.

We are of opinion that a certified copy of the order of the District Judge or any court of competent jurisdiction, showing that *Talaq-i-Tafweez* has been effected, may be added to the list of documents which would prove divorce, for the reason that a divorce may be effected before the District Judge.

We think it advisable to provide the following two safeguards in respect of the registration of such marriages, namely :—

- (1) that no such marriage shall be registered within six months of the divorce, and
- (2) that one month’s notice be given to the previous husband before such marriage is registered.

Clause 5.—We think that the entry should be signed by the woman herself and we do not think it desirable that an exception should be made in the case of *pardanashin* women. We have, therefore, omitted the proposed proviso in clause 5(b)(1).

New clause 5A.—This clause is consequential on new clause 4A(iii).

Clause 6.—In clause 6(a)(iii), we have substituted the words “particulars of the” for the words “reference to” to make the intention more clear.

In clause 6(c) in Form D, item No. 3A is a reproduction of item No. 8 with necessary changes ; items 7 to 10 have been omitted in consequence of the omission of the proposed proviso in clause 5(b)(1).

We recommend that the Bill, embodying the amendments recommended by us, be passed.

NOTE.—The signature of Khan Sahib Maulvi Mohammed Basir Uddin had not been received up to time of printing this Report.

Minute of dissent by Mr. H. S. Suhrawardy, M.L.C.

There is no need to add after the word "marriages" in clause 3 (a) the words "including marriages of women who have effected divorces of the kind known as *talaq-i-tafweez*." The general term "marriages" includes the marriage of such a woman. We do not specifically mention the marriages of women who have been divorced by *talak*, *khula* or *mubarat*; hence there is need to mention this.

Similarly, there is no need to add [as suggested in clause 4 (a)] the words "including the registration of a marriage of a woman who has effected a divorce of the kind known as *talaq-i-tafweez*." Clause 4A further makes it clear that the term "marriages" includes the marriage of such a woman.

2. In clause 3 (b) of the Bill, for the words "or *talaq-i-tafweez*" the words "and *talaq-i-tafweez*" be substituted.

3. **Clause 4A (proposed section 9A).**—Under this clause the marriage of a woman who has effected a divorce by the method of *tafweez* will not be registered—(a) within six months of the divorce, though the application must be made within one month of the marriage under section 9, (b) or unless he has produced a registered document (a certified copy appears to be excluded), or a certified copy of a decree showing that divorce has been effected, or of an attested copy of an entry in Book IV (i.e., in the register of *talaq-i-tafweez*).

Now a *talaq-i-tafweez* will not be registered in Book IV unless (a) there is a registered document by which the husband delegated the power, or (b) there is an attested copy of an entry in the register of marriages showing that such delegation has been made.

Talaq-i-tafweez therefore will not be registered in Book IV (a) if there is agreement subsequent to the marriage delegating the power to the wife, unless it is registered under the Indian Registration Act, or (b) even if there is a declaratory decree by a competent court that the power has been delegated to the wife.

Under these conditions the wife will have to have a document registered that the divorce has been effected, or file another suit for such a declaration, before the marriage can be registered.

I therefore suggest—

- (a) in section 9 of the main Act the following be added in the beginning "Subject to the provisions of section 9A herein";
- (b) 9A (b) should be 9A (a), i.e., the provision with regard to registration of the "Divorce" should come first;
- (c) in 9A (b) (existing), after the word "documents" the words "or a certified copy of the order of the District Judge or any court of competent jurisdiction showing that such power has been delegated" be inserted;
- (d) provision should be made for the registration with the Muhammadan Registrar of such delegation of power by the husband after the marriage and an attested copy of such an entry showing that such delegation has been made should entitle him to register the divorce;
- (e) 9A (a) should be 9A (b);
- (f) in 9A (a) (i) (existing), after the word "documents" the words "or a certified copy thereof" be inserted; and
- (g) in 9A (a) (ii) (existing), the words "notwithstanding anything contained in section 9" should be omitted.

4. **Clause 5 (b) (3)** is unnecessary, and I suggest it should be omitted. It seems that the register must be signed by the woman who has effected the divorce, whether the application for registration under section 8 of the main Act as proposed to be amended by clause 4 of this Bill is made by her or her *vakeel*. If this is so, there is no reason why two witnesses to the mere authority of the *vakeel* to make an oral and a formal application of registration be called upon to sign when the *vakeel* himself is not signing.

There is such an unnecessary clause in the *Khula* register, but it may be of use where the woman being a *pardanashin*, a *vakeel* is permitted to sign the entry on her behalf. Here there is no such power given to the *vakeel*.

5. **Clause 6** (amending the schedule): For reason stated above "including marriages of women who have effected divorces of the kind known as *talaq-i-tafweez*" should be omitted.

DIVORCES REGISTRATION (AMENDMENT) BILL,
[1933.] 1934 ;**

FINANCE DEPARTMENT.

RESOLUTION.

Simla, the 31st May 1934.

Rules for the examination of candidates for admission to the Indian Audit and Accounts Service, the Military Accounts Department and the Indian Railway Accounts Service.

No. F. 15(3)-Ex. 1./34.—In supersession of this department resolution No. F./46/VI/Ex.-I/30, dated the 4th of June 1930, the following revised rules, which are liable to alteration from year to year are prescribed for the examination of candidates in India for admission to the Indian Audit and Accounts Service, the Military Accounts Department and the Indian Railway Accounts Service.

1. A competitive examination for admission to the Indian Audit and Accounts Service, the Military Accounts Department and the Indian Railway Accounts Service, shall be held in India at such time as the Governor-General in Council may direct.

2. The maximum number of candidates to be admitted to the examination may, at the discretion of the Governor-General in Council, be limited to such number, not being less than 200, as the Governor-General in Council may decide. If the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and in doing so shall have regard to the suitability of the applicants and to the adequate representation of the various provinces and communities of India.

3. (i) A candidate must apply to be admitted to the examination before such date, and in such form, and manner, as the Public Service Commission may prescribe.

(ii) If a candidate is in Government service at the date of his application, he shall apply through the head of his department, either—

(a) If he is employed by the Central Government, to that Government, or

(b) If he is employed by the Local Government or Administration, to that authority.

(iii) If a candidate is not in Government service at the date of his application, he shall apply to the proper authority of the area in which he resides otherwise than only for the purpose of his own education.

(iv) The proper authority for a Governor's Province shall be the Chief Secretary; for Coorg, Delhi or Ajmer-Merwara, the Chief Commissioner; and for a State in India, the Political Officer or Agent, who must be addressed through the Government of the State.

(v) No candidate may make more than one application in respect of any one examination.

4. A candidate must be a male and either:

(a) a British subject of Indian domicile whose father (if alive) is a British subject or a subject of a State in India; or (if dead) was

at the time of his death either a British subject or a subject of a State in India or a person in the permanent service of the Crown or a person who had retired from that Service; or

(b) a ruler or a subject of a State in India:

Provided that in the case of a male British subject the requirements of this rule may be waived by Government if satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry or upbringing with His Majesty's Dominions as to justify special treatment.

Provided that a ruler or a subject of a State in India cannot be appointed unless he has obtained a declaration under section 96A of the Government of India Act.

5. Candidates must have attained the age of 22, and must not have attained the age of 25, on the first day of August 1934:

Provided that a candidate who is over the age of 25 and under the age of 30 at that date may be admitted to the examination if he—

(a) holds substantively a permanent post under the Central or a Local Government, and

(b) is recommended by the head of his department.

6. A candidate must satisfy the Public Service Commission that his character and antecedents are such as to make him suitable for appointment to the public service. No candidate who is in the employment of the Central or of a Local Government will be admitted to the examination, unless the head of his department reports that his character and attainments are satisfactory.

7. A candidate must be a graduate of one of the Universities enumerated in the first appendix to these rules or hold the Senior Diploma of the Mayo College, Ajmer, or the Government Diploma in Accountancy.

Provided that, in exceptional cases the Public Service Commission may, on the recommendation of the Central Government or a Local Government treat as qualified a candidate who, though he has not any of the foregoing qualifications, has passed examinations conducted by other institutions of a standard which in the opinion of the Commission justifies his admission to the examination.

8. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

9. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his candidature by other means may disqualify him for admission.

10. A candidate must pay the following fees:—

(a) Rs. 7-8 with the application form;

(b) If accepted for admission to the examination, Rs. 50 immediately after receipt of the certificate of admission; and

(c) Rs. 16 for the examination by a Medical Board.

Candidates are required to pay their medical fees in cash to the Medical Boards concerned at the time of their medical examination.

No claim for a refund of any of these fees will be entertained.

11. The examinations will be conducted by the Public Service Commission in the manner prescribed in the regulations in the second appendix.

12. A list of competitors shall be made out in the order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor and in that order so many competitors up to the determined number of appointments as are found by the Public Service Commission to be qualified by examination and are considered by the Governor-General in Council to be duly qualified in all other respects shall be eligible for appointment. Should any selected candidate become disqualified the candidate next in order of merit and in other respects duly qualified and acceptable in all respects shall be deemed to be a selected candidate. The Governor-General in Council shall assign successful candidates to the various services on a consideration of all circumstances including any personal preference expressed by them.

13. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the discharge of his duties as an officer of Government. A candidate who is found after examination by a Medical Board not to satisfy these requirements will not be appointed. After the list mentioned in Rule 12 has been made out, candidates who are likely to be appointed will be medically* examined.

ORDERED that the resolution be published in the Gazette of India.

St. James's Palace, S. W.-1,

8th May, 1934.

The KING has been graciously pleased to approve of the award of the Medal of the Military Division of the Most Excellent Order of the British Empire to the under mentioned:—

For Gallantry.

Major Douglas Alexander Brett, M.C., 1st Royal Battalion (Light Infantry), 9th Jat Regiment, Indian Army.

At Chittagong, Bengal, at about 5-30 P.M. on the 7th January, 1934, an attack was made by four Hindu youths (terrorists), on a group of 40 to 50 Europeans, including women and children, at the conclusion of a cricket match. The terrorists were armed between them, with one revolver and 7 bombs. The group of Europeans was collected under a shamiana on a hillock. Two of the assailants came out from behind a small bungalow and, running towards the Europeans, threw one bomb each. Both the bombs, fortunately, failed to explode. One of these assailants, who was armed with a revolver, ran on fast towards the Europeans, firing his revolver rapidly as he went. Major Brett, who at the time was unarmed, rushed at this man, grappled with him, and brought him to the ground, holding the man's right arm with the revolver firmly against the ground. Other Europeans came to his assistance, and the assailant was secured.

Major Brett displayed great gallantry and quickness in thus grappling, unarmed, with the terrorist.

Captain Richard Deedes, The King's Shropshire Light Infantry, Adjutant, The Assam-Bengal Railway Battalion, Auxiliary Force, India.

At Chittagong, Bengal, at about 5-30 P.M. on the 7th January, 1934, an attack was made by four Hindu youths (terrorists), on a group of 40 to 50 Europeans, including women and children, at the conclusion of a cricket match. Two of the assailants came out from behind of a small bungalow and, running towards the Europeans, threw one bomb each. Both bombs, fortunately, failed to explode. Of the two terrorists, one rushed towards the group of Europeans, firing a revolver; the other ran down the slope towards the cricket ground, and across the road where some cars were parked. Captain Deedes, seeing this man run away, dashed off in pursuit, and was close behind the terrorist, when the latter was tripped up by a chauffeur. Captain Deedes fell on the man, and held him down until assistance came.

Captain Deedes acted in a gallant manner in pursuing and tackling the terrorist, who still had a bomb on his person when captured.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. NOTIFICATION.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Hooghly.—No. 141T.P.H.—9th June 1934.—In pursuance of rule 7 of the rules made by the Governor-General in Council under section 4 of the Local Authorities' Loans Act, 1914, and published under Government of India notification No. 1020A., dated the 10th November, 1914, it is hereby notified for general information that the Government of Bengal (Ministry of Public Health) intend to sanction the following application from the Commissioners of the Serampore Municipality, in the Hooghly district, for a loan of Rs. 2,00,000 for their Waterworks Scheme, bearing interest at the rate of 5 per cent. per annum and repayable in forty equal half-yearly instalments of Rs. 7,967-3-11 each, unless good reasons are shown to the contrary within one month from the date of publication of this notification.

[illegible]

In addition to the details required on the previous page, clear information should be given below under the following heads:—

(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.

(b) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the reverse are levied, other than tax on persons, should be stated here.

(a) The ordinary surplus is not insufficient. Besides, under the proposed scheme of independent water works for which the loan is to be taken there will be a nett saving in the recurring expenditure amounting to Rs. 22,541 per year from the water rate alone. This figure has been obtained from the average actual collections under water rate and not on the basis of the pearly demand. If the collections are more favourable the amount of savings will come up to Rs. 25,000 approximately. This amount after meeting all overhead charges not only covers the amount of annual instalment of the old loan and proposed loan as well as depreciation fund, but will leave a surplus which sufficiently guarantees the repayment of the loan proposed.

(b) By the general revision of assessment which will take effect next year, it is anticipated that the income of the municipality will be considerably increased, due to the addition of new holdings.

Column 12 of application—

(1) Rates on holdings at $7\frac{1}{2}$ per cent. on the annual value of holdings.

(2) Water rate at $7\frac{1}{2}$ per cent. on the annual value of all connected holdings and of all holdings situated on roads supplied with water pipes and 6 per cent. on holdings situated on roads not so supplied, while holdings beyond a radius of 750 feet from the nearest standpipe being exempted from water rate.

(3) The conservancy rate is fixed at $6\frac{1}{2}$ per cent. on the annual value of holdings above Rs. 50, for the holdings valued below Rs. 50 on the following scale:—

		Per annum.		
		Rs.	Rs.	Rs. a.
Holding valued from ..	1 to 6	at	0	4
Ditto ..	7 to 15	at	0	12
Ditto ..	16 to 25	at	2	0
Ditto ..	26 to 50	at	3	0

The different rate, i.e., Rs. 9-6 per cent. hitherto charged on cooly lines is discontinued, and charged from the first quarter 1933-34, at the same rate as other holdings.

(4) Lighting rate is not in force for the present till electricity is introduced.

(c) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.

(e) Outstanding loan.	The date when taken.	Purpose.	Annual charges.	Amount still payable.
			Rs. a.	Rs. a.
Old loan of Rs. 40,000.	Paid off during 1932-33.
New loan of Rs. 60,000.	26th March 1925.	Extension of water-supply.	4,810 10 including interest.	53,597 3

The instalments are paid regularly.

(d) Not necessary.

(d) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus

SUPPLEMENT.

Official Papers.

Report on Public Instruction in Bengal for the year 1932-33.

CHAPTER I.

General.

1. (i) The year 1932-33 witnessed slow but steady work by the Department of Education in the direction of the spread of education. The advance in the number of schools and pupils showed that the wave of political unrest had spent its force, at least outwardly, and educational affairs were adjusting themselves to more normal conditions.

The acute financial and economic depression through which the country was passing prevented the introduction of the full scheme of Bengal (Rural) Primary Education Act, 1930, but the District Boards of Mymensingh, Chittagong, Pabna, Dinajpur, Noakhali, Birbhum and Bogra agreed to participate in the optional scheme worked out by Dr. W. A. Jenkins.

(ii) The scheme for the introduction of free and compulsory primary education in Ward No. IX of Calcutta without levying any education cess and without receiving any subsidy from provincial revenues, which was prepared by the Corporation, was sanctioned by Government and will come into operation shortly.

(iii) In modification of rule 4 of the rules for the award of free-studentships to pupils of the backward classes, who used to enjoy free places up to 5 per cent. of their own enrolment, they are now allowed such concessions up to 15 per cent. of the enrolment.

(iv) Power has now been delegated to Inspectors of Schools to transfer all non-gazetted officers in the Subordinate Educational Service and menials under their administrative control within their own jurisdiction.

(v) Steps were taken for the prevention of diversion of Government grants to other purposes by district boards and the accounts of the Hooghly District Board from 1927-28 to 1930-31 were audited by a special Government Auditor. A sum of Rs. 17,337 was declared by him to be due from the district board.

(vi) Many secondary schools started agricultural classes, while some middle English schools extended the course above the middle stage with departmental sanction and aid.

(vii) As a measure of retrenchment the grants to secondary schools and colleges had to be reduced.

(viii) A general cut ranging from 10 per cent. to 15 per cent. from the salaries of Government servants holding permanent and officiating appointments respectively above a prescribed minimum was in operation.

(ix) Deputation of Government servants to the Training Colleges was stopped.

(x) Twenty-five posts of Subdivisional Inspectors of Schools were replaced by Sub-Inspectorships of Schools.

2. Towards the end of the year the Parliamentary White Paper containing proposals of His Majesty's Government on constitutional reforms in India was published. The proposals in many respects are far-reaching. As one of the proposals was the introduction of an educational qualification for franchise, the whole question of the education of the masses has assumed great importance.

3. (i) The progress made in education in Bengal during the year can be measured by the following tables which give comparative figures for 1932-33 and the preceding year:—

			1931-32.	1932-33.

CHAPTER II.

Administration and Control.

1. Educational institutions in Bengal are under the control of officers of the Education Department, the two Universities of Calcutta and Dacca, the Board of Intermediate and Secondary Education, Dacca (which has jurisdiction over a small area at Dacca), the district and municipal boards and various missionary and secular societies—both Indian and non-Indian. The control of the Education Department in the Presidency rests ultimately with the Minister, who is an elected member of the Legislative Council. Throughout the year 1932-33 the Hon'ble Mr. Khwaja Nazimuddin, C.I.E., was in charge of the Education portfolio. European education was administered, as previously, by a Member of His Excellency the Governor's Executive Council.

2. The Education Department is manned by officers belonging to the—

- (i) Indian Educational Service,
- (ii) Bengal Educational Service,
- (iii) Subordinate Educational Service, and
- (iv) by officers holding special posts and posts not included in any of the classes mentioned above.

(i) *Indian Educational Service*.—Recruitment to the Indian Educational Service has been stopped for some years by orders of the Secretary of State, but the Government of Bengal have not yet constituted the superior grade of the Bengal Educational Service which is eventually to replace it. Vacancies in the Indian Educational Service are now either kept in abeyance, or filled on a contract system on a special rate of pay, or filled by officers of the Bengal Educational Service on their own pay. The number of posts in the Men's Branch of the Indian Educational Service was, as in the previous year, nominally 67 (excluding that of the Director of Public Instruction), of which 3 were in the Higher Selection grade, 10 in the Lower Selection grade, and one on a special rate of pay, the remaining 53 posts being in the ordinary time-scale of the service. But the actual number is steadily dropping. Of

the 67 posts, 3 were held in abeyance and 31 filled by officers of the Bengal Educational Service or on special rate of pay, and no less than 9 were vacant. Of the remaining 24 posts, 11 were held by Europeans and 13 by Indians.

The Women's Branch of the Indian Educational Service had, as in the previous year, 4 appointments, one of which was in the Selection grade. Of the 3 appointments in the ordinary grade, one is held by an Indian officiating in the Indian Educational Service, one by an officer on a special rate of pay and one by a European on special contract.

(ii) *Bengal Educational Service*.—There were 208 permanent posts in the Men's Branch of the Bengal Educational Service on 31st March 1933 as compared with 210 on the corresponding date of the previous year. During the year under review 3 of the Bengal Educational Service posts were reduced to Subordinate Educational Service grade, and one Bengal Educational Service post was created to provide for the appointment of a Head Master for the Armanitola High English School, Dacca, on the abolition of the special post which was previously attached to the headmastership of the school. Seventeen temporary posts were also created in the Bengal Educational Service during the year under report.

The Women's Cadre of the Bengal Educational Service included 21 appointments as compared with 20 in the preceding year. This number includes one temporary post which was created to provide for the appointment of a Professor of Philosophy in the Bethune College, Calcutta, against a vacancy caused in the Men's Branch of the Bengal Educational Service.

(iii) *Subordinate Educational Service*.—The Subordinate Educational Services or services below the Bengal Educational Service comprise different branches of appointments, viz., teaching, inspecting, ministerial and miscellaneous, each consisting of different time-scales of pay introduced in September 1921. At the beginning of the year under report, appointments in the Subordinate Educational Service numbered 2,177, but owing to the abolition of certain posts and the creation of some new appointments the number was reduced to 2,154 on 31st March 1933 as detailed below:—

	On 31st March 1932.	On 31st March 1933.	
Teaching ..	1,344	(a) 1,342	(a) Including 88 posts held in abeyance or lying vacant.
Inspecting ..	316	314	
Ministerial ..	420	(b) 402	(b) Including staff for the Special Officer for Primary Education.
Miscellaneous ..	97	(c) 96	(c) Including 10 posts held in abeyance.
	<u>2,177</u>	<u>2,154</u>	

(iv) *Special posts*.—During the year under report the number of special posts was reduced from 42 to 40 owing to (1) the abolition of the post of Assistant Principal, Ahsanullah School of Engineering, Dacca, on the retirement of the late incumbent and (2) the transfer of the post of Head Master, Armanitola High English School, Dacca, from the list of special posts to the Men's Branch of the Bengal Educational Service.

Officers outside the classified lists.—The number of such officers increased from 19 in the previous year to 21. Towards the close of this year the temporary post of the Additional Assistant Director of Public Instruction was abolished and three posts were created—one for the appointment of a Principal, Eden High School for Girls, Dacca, and two others for the appointment of Professors of History and Economics at the Presidency College, Calcutta. By the end of the year under report a post of Special Officer was created in connection with the introduction of the Bengal (Rural) Primary Education Act, 1930, and Dr. W. A. Jenkins, D.Sc. (Sheffield), of the Indian Educational Service, was appointed to the post from 8th March 1933.

3. **Direction.**—The Director of Public Instruction, Bengal, is the executive head of the Education Department of the Government of Bengal. During the year under review Mr. H. E. Stapleton, the Director of Public Instruction, Bengal, was assisted in his work by Mr. R. Wolfenden, Assistant Director of Public Instruction, Khan Bahadur Maulvi Alfazuddin Ahmad, Assistant Director of Public Instruction for Muhammadan Education, Khan Bahadur Maulvi Abul Hashem Khan Choudhury, the temporary Additional Assistant Director of Public Instruction, Bengal (up to 28th February 1933), Dr. W. A. Jenkins, Special Officer for Primary Education, Bengal (from 8th March 1933) and Mr. J. Buchanan, Physical Director.

4. **Inspection.**—The subjoined table indicates the strength of the departmental inspecting staff as it stood on the 31st March 1933. There was no change in the duties of the various grades of the inspecting officers.

(a) Includes the post of a Second Inspector of Schools, Presidency Division, which has been kept abeyance.

5. The District and Subdivisional Officers continued to give ungrudging assistance and advice to the department whenever it was sought for. As Chief Executive Officer in the district, the District Magistrate has a very important voice in the grant of aid to schools and the constitution of their managing committees. The department is specially grateful to these officers for their generous co-operation particularly in times of trouble and unrest. The acknowledgments of the department are also due to the Chairmen of District and Local Boards,

Municipalities and Union Boards for the interest which they have taken for the improvement of primary and technical education in their respective areas. The work of the various missionary societies—both Indian and non-Indian—and other organisations also deserves special mention for their wholehearted endeavours especially for the spread of education among women and the members of backward communities. The Railway authorities of the province also greatly assist the cause of education by maintaining at important centres schools which are open to children of all communities, although they are meant chiefly for the education of the sons and daughters of Railway employees.

6. **Bengal Retrenchment Committee.**—The recommendations made by the Bengal Retrenchment Committee of 1932, which met under the Chairmanship of Mr. J. A. L. Swan, C.I.E., I.C.S., involved proposals for effecting drastic retrenchments in the department including the closure of certain educational institutions. After mature consideration Government were unable to accept the proposals in their entirety. The following posts, some of which have been or will be replaced by posts of smaller value, were affected by the proposals:—

- (a) *Professorships, etc.*—Eight abolished and one to be replaced by a post of smaller value.
- (b) *Lecturerships.*—Two abolished and one kept in abeyance.
- (c) *Subdivisional Inspectorships.*—Twenty-five replaced as a temporary measure by Sub-Inspectorships.
- (d) *Sub-Inspectorship (temporary).*—One abolished.
- (e) *Clerks of Subdivisional Inspectors of Schools and of the Presidency and Bengal Engineering Colleges.*—Twenty-three abolished.
- (f) *Foreman Instructor.*—One abolished.
- (g) *Zenana Governesses.*—Fourteen to be abolished in 1933-34.
- (h) *Menials.*—Thirty-nine abolished.

It should be remembered that owing to many superior service posts having been filled by lower paid officers there had already been a considerable measure of retrenchment in the department.

CHAPTER III.

University and College Education.

1. **Universities.**—At Calcutta Sir Hassan Suhrawardy, M.T., O.B.E., M.D., was Vice-Chancellor of Calcutta University during the year ending 31st March 1933. He was appointed a representative of the University on the Inter-University Board, India, with effect from 1st April 1932. Dr. Harendracoomar Mukerjee, M.A., Ph.D., placed at the disposal of the Senate of Calcutta University $3\frac{1}{2}$ per cent.

Government Promissory Notes of the face value of Rs. 1,50,000 for the purpose of creating an endowment in memory of his late father, Mr. Lalchand Mookerjee, the income of which may enable properly qualified Bengali Protestant Christian students to be sent abroad for a course of theoretical and practical training in technical, industrial, mechanical, agricultural and allied subjects. In December 1932 the Syndicate recommended to the Senate that the offer be accepted with thanks. The following comparative table shows the number of students (both post-graduate and undergraduate) reading in the University of Calcutta during the last 2 years :—

	1931-32.	1932-33.
In M.A. classes	888	894
In M.Sc. classes	256	247
Under-graduate students (in Commerce classes)	89	108
Women students	26	52

It is gratifying to note that the number of women students doubled itself in course of the year.

2. Professor G. H. Langley, M.A., I.R.S., was Vice-Chancellor of Dacca University during the period under review. The number of students belonging to the 3 faculties of Arts, Science and Law declined slightly from 719 to 716 (including 28 research students and 24 women students). Besides this number there were 35 students reading in the B. Com. classes. It is reported that there was a marked decrease in the number of law students of Dacca University. It is not likely that there will be an appreciable improvement in the number of students while the present acute economic distress continues. The Department of Physical Education in Dacca University was reorganised during the period and the corporate activities of the Students' unions and the Social Service League were carried on vigorously.

3. **Board of Intermediate and Secondary Education.**—The Board has completed the thirteenth year of its existence. Since October 1932, the pay of the Chairman of the Board has been reduced from Rs. 1,200 to Rs. 800 per mensem. It was recommended by the Retrenchment Committee that the post of the Chairman should be honorary and the question is under the consideration of Government. The cost of maintaining the Board amounted in the year under report to Rs. 46,389, of which Rs. 11,644 was met from provincial revenues. The number of intermediate colleges under the Board remained unchanged at 4 (excluding the 3 Islamic intermediate colleges at Dacca, Chittagong and Serajganj) of which two, viz., the Dacca Intermediate College and the Eden Intermediate College, were, as previously, maintained by Government, while the Jagannath Intermediate College was aided.

4. **Colleges.**—The total number of arts colleges rose during the year from 49 to 51, of which 45 were for men and 6 for women. The starting of intermediate classes in the Victoria Institution, Calcutta, and the creation of the Women's Department of Vidyasagar College as a separate unit account for the increase. The enrolment of arts colleges increased from 19,744 to 20,867. The total cost of maintaining arts colleges fell in the year under report from Rs. 35,39,603 to Rs. 34,67,254.

Of the 45 arts colleges for men 10 were, as previously, maintained by Government, and the rest were managed by private associations and

in many cases with grants received from Government. The following tables give comparative figures of enrolment and the cost of maintenance of arts colleges for men for the years 1931-32 and 1932-33:—

Number of students in colleges for men—				1931-32.	1932-33.
Hindus	16,516	17,090
Moslems	2,574	2,818
Others	288	451
Total				19,378	20,359

Expenditure on Arts colleges for men—				Rs.	Rs.
Provincial	12,94,993	11,55,491
District and municipal funds	3,567	2,575
Fees	17,72,522	18,75,458
Other sources	3,26,370	2,91,359
Total				33,97,458	33,24,883

A sum of Rs. 1,99,330 was distributed by the department in the year under report in giving grants to private colleges; on account of financial stringency, however, the distribution of the grant of Rs. 1,29,000, which is given on the recommendation of Calcutta University to non-Government colleges for the improvement of libraries, laboratories and gymnasia was not made. For the same reason the maintenance grants of private colleges were reduced by 10 per cent.

Government Colleges.—The number of Government colleges was 10 as before; these colleges registered 3,205 students on 31st March 1933 as compared with 3,245 on the corresponding date of 1932. The maintenance of these colleges cost Government Rs. 13,36,032 in the year under review, of which Rs. 9,16,984 was provided from provincial revenues; so that the average annual cost of educating a student was Rs. 417, of which Rs. 286 was met from provincial revenues. The figures for individual colleges are given in the subjoined table:—

*Figures relating to Government Colleges for men.**

*Including 127 post-graduate students.

†Islamic Intermediate Colleges maintained by Government have been dealt with Chapter X.

The Presidency College passed a quiet year. Mr. H. K. Banerjee, Professor of English, who was the Bursar, was succeeded by Babu Charu Chandra Bhattacharyya, Demonstrator of Physics. In September 1932, Babu Benoy Kumar Sen, Professor of History, was transferred to the Intermediate College, Dacca, as officiating Principal. The Post-graduate Students' Mess (a rented house) attached to Presidency College was closed with effect from 1st June 1932, and the boarders of the mess were transferred to the Eden Hindu Hostel. The Principal draws attention to the serious effect of the high fee rates charged by the college which discourage students who pass their examinations creditably from seeking admission into it. The maintenance charges of the college fell by Rs. 60,174 during the year under report; the decrease is attributed to 10 per cent. cut in the salaries of the staff and to the retirement of some senior officers, whose places were filled by younger men on lower salaries. The affiliation in Civics has proved very attractive. The seminars did very useful work. The Founder's Day was duly observed. Earnest efforts are being made to offer facilities for increased association between the staff and students and it is pleasing to note that there is keen response on both sides. About 600 students of the college took part in some form or other of regular physical exercise. All students of the first year class were medically examined; of these as many as 75 per cent. are reported to have defective vision.

With the close of the academic session 1932-33 the Islamia College, Calcutta, completed the seventh year of its existence. His Highness the Nawab of Rampur paid a visit to Islamia College during the year under report and generously gave a sum of Rs. 2,000 to the college duty fund. Efforts are being made by the college authorities to attract more, and if possible, better qualified students to the Science Course. Debates were held by students on Saturdays, the attendance at these meetings being compulsory. The college playground at Gorachand Road has been thoughtfully planned and is fairly well used, and physical training has been made compulsory for all first year students. A register is maintained for recording the history of ex-students, who have graduated from Islamia College. The college duty fund, which has since its inception collected a sum of Rs. 26,258, has been a source of material benefit to poor deserving students, who have invariably acquitted themselves very well in University examinations. The number of Mohsin Fund concessions allotted to the college is reported to be inadequate. Mr. Harley, the Principal, being on leave from July to December 1932, Mr. J. W. Holme, Professor of English, Islamia College, was in charge of the institution. A student of the college was selected for the Inter-University Cricket team against the Punjab University.

For the first time last session 2 girls were admitted to Hooghly College; the Principal is of the opinion that co-education is in every way beneficial, although there may be temporary embarrassments till it becomes normal. The first year I.Sc. class was not full last year, although the third year science class was full. There were comparatively few changes in the teaching staff during the year under review. The Bengali Lecturer being a part-time officer, the arrangement causes considerable inconvenience. Tutorial was done to a considerable extent, especially in English. The most noteworthy event of the year was the provision of steel shelving and electric lights in the College Library at a cost of Rs. 2,395. One of the drawbacks of the college is the lack of its own playing fields. The absence on

leave of J. S. C. Ghosal has been a serious blow to the College Platoon, the strength of which was 12 during the year. The Founder's Day was celebrated in August 1932 under the presidency of Sir Deva Prosad Sarbadhikari, and it was a success. The college was absolutely free last year from any trouble due to political reasons, and attendance was regular.

The Krishnagar College passed a year of steady progress during which the roll strength increased to some extent. By the retirement on invalid pension of Babu Basanta Kumar Roy, Professor of English, the College has lost an able teacher. "It is time," writes Mr. Sen, the Principal, "that an attempt were made, if possible, to wean away from centres of undesirable attractions and political excitement young mufassal boys desirous of college education by throwing open to them sufficient facilities in Government colleges outside Calcutta, which have so long been monopolised by Calcutta." The starting of Honours classes in Chemistry being opposed by the University some of the best students, who were admitted into the Honours class in Chemistry had to drift into other subjects. In August 1932 approval was given by Government to the admission of girls into Krishnagar College. Besides the College Endowment Fund which amounts to Rs. 75,100 there are four trust funds attached to the college. In addition to the Hostel Superintendent who was assisted by a monitor, two senior teachers acted during the year under report as visitors of the hostel. The Principal lays considerable stress on the desirability of having a hostel built for the Moslem students in the college compound. The supply of water to the College Laboratory is unsatisfactory. In the second and fourth year classes every student is given one hour's tutorial work in every subject each week but the provision of tutorial work to first and third year students has proved a difficult task owing to inadequacy of staff in English, History and Mathematics.

The condition at Chittagong was much disturbed after the Pahartali Institute Outrage, and some students of Chittagong College were arrested. During the year under review the college walls, particularly of the first year class, were repeatedly defaced by scrawlings of revolutionary slogans; but as the offenders could not be traced the first year class was fined. The expulsion of one student and rustication of another ultimately put an end to the evil. The general body of students however behaved well and loyally co-operated with the college authorities all through the year. A system of supervisional classes was organised last session and each student was placed in charge of a member of the teaching staff; but the Curfew Order and the Sunset Law made it difficult for the teachers to come in contact with students except during college hours. The system will be revived next session. The roll strength declined slightly during the year. The Hindu Hostel, which was housed in an unsuitable building was closed down in April 1932; the building is being used for additional class rooms. His Excellency the Governor of Bengal was pleased to make an allotment of Rs. 150 for the College Library during his visit to the town in August 1932. The laboratories which are ill-equipped and unsuitably housed have no provision for a workshop, a question which has been repeatedly emphasised by the University Inspector of Colleges. Social gatherings, debates and literary meetings were held as usual. The college is handicapped by not having proper playing fields of its

The disturbed political condition of Chittagong was mainly responsible for the absence of keenness in college athletics.

The Rajshahi College passed an uneventful year and the college atmosphere was quiet. The number of students decreased in this college. An important event of the year was the introduction of a new system of tutorial supervision under which the tutor is to give the students moral and intellectual guidance. The scheme for the establishment of an agricultural institution in connection with Rajshahi College has not yet fully materialised but it is expected to be established in the near future. The college students had the opportunity last year of listening to a lecture on the "Rise and Progress of Marhatta Power" delivered by Sir Jadunath Sarkar, an old student of Rajshahi College. Moral and religious discourses were held every Friday. The college did not maintain its high tradition in football; other activities were crippled for shortage of funds.

The Intermediate College, Dacca, enjoyed a quiet year. Mr. B. K. Sen, Professor of History, Presidency College, succeeded Mr. S. N. Maitra as Principal in September 1932. With a view to render the sessional tests more effective the periodical examinations were replaced by monthly "circle" examinations. There were several cases of burglary in the Chemistry Department due perhaps to its location in a somewhat insecure corner of the building.

The Sanskrit College obtained affiliation in Civics with effect from July 1932. Unlike other Government colleges the Sanskrit College Library provides facilities for research to Oriental scholars and outsiders who carry on research work under the Principal or Professors of the Oriental Department. Students of the first year class were examined by the Medical Board of the Students' Welfare Committee of Calcutta University. Defect cards were issued to 25 students out of 36. Mr. Stapleton delivered a lecture on "Dead Cities of Northern Bengal." The rules regarding the management of the Sanskrit College Library were approved by Government during the year under report.

Aided colleges.—There were 20 aided private colleges in 1932-33 with 9,478 students on the rolls as against 20 aided colleges attended by 8,948 students reported in the previous year. The total cost of maintaining aided colleges amounted during the year under review to Rs. 12,11,287, of which Rs. 2,17,805 was borne by provincial revenues, and the average annual cost of educating each student was Rs. 128, of which Rs. 23 was met from provincial revenues.

Dr. W. S. Urquhart, M.A., D.LITT., Principal of the Scottish Church College, was absent on leave during almost the whole of the period under review. He went on furlough after four years of hard and continuous work, shouldering for two years in addition to his own duties the difficult and multifarious work of the Vice-Chancellor of Calcutta University. He has again joined his duties after enjoying his well-earned furlough. The greatest credit is due to Mrs. Kellas, the Secretary of the Union Hostel Committee, for the fostering care she devoted to the girl students of the college both as a teacher and a guide to them. She stepped into the breach caused by the departure of Mrs. Urquhart. The number of girls in this college fell from 90 to 78 in the year under review.

Serampore College obtained affiliation in Civics from July 1932. In view of the financial difficulties the staff of the college generously offered to contribute $7\frac{1}{2}$ per cent. of their salaries, and the Council in London felt that there was no other alternative but to accept this offer.

The Bankura College obtained affiliation in Civics this year. The Rev. A. E. Brown, M.A., C.I.E., returned to resume the post of Principal in November last.

Affiliation has recently been granted in Civics for the I. A. classes of the Ananda Mohan College, Mymensingh. An academic achievement during the year under review was the doctorate granted by Calcutta University to one of the Professors of the College for a thesis on Indian Numismatics. Elaborate arrangements for games for girls have been made in this college; they have a Common Room of their own. One of the hostel buildings was utilised last session for the accommodation of girls' classes which were opened in the previous session.

The Board of Trustees of the Hindu Academy, Daulatpur, have spent Rs. 16,000 towards the repair and restoration of the spur-works to prevent the erosion of the Bhairab from doing any damage to the college building. In this direction Government made a contribution of Rs. 4,000.

The progress in studies of the girl students in the Braja Mohan College, Barisal, is reported to be very satisfactory. Government sanctioned for one year a sum of Rs. 4,680. Credit is due to the Professors that they are still continuing their extra work for these classes.

Unaided colleges.—During the year under review the Presidency had 15 unaided colleges for men with 7,676 pupils as compared with 15 and 7,185 respectively in the previous year. The cost of maintaining the unaided colleges amounted during the year under review to Rs. 7,77,564, the average annual cost of educating a student being Rs. 101.

The Burdwan Raj College had to be closed from 4th to 17th February and again from 6th March to 19th March 1933, under the orders of the Collector owing to small-pox in the town in an epidemic form.

On the request of some local guardians the authorities of the Ashutosh College, Bhowanipur, opened a morning department for girls in the college during the year under report. The only extra expenditure for the department was the appointment of a Lady Professor and arrangement for conveyance.

The financial position of the Uttarpara College is deplorable. To consider the situation a conference was called and a substantial cut was made in the salaries of the teaching staff, and Kumar Bhupendra Nath Mukherjee agreed to meet half the deficit by monthly contributions for one year.

The City College Workers' Association consisting of students and certain members of the teaching staff are doing good work for the public and the sufferers from famine and floods in the mufassal.

CHAPTER IV.

Secondary Education.

1. **General.**—The following table gives comparative figures for all secondary schools in the province for the years 1931-32 and 1932-33:—

Number of schools—	1932-33.	1931-32.
High	1,186	1,157
Middle English	1,873	1,904
Middle Vernacular	62	62
Number of pupils	456,175	451,672
Cost of maintenance	Rs. 149,09,770	148,50,159

The average annual cost of educating a pupil in a secondary school in 1932-33 was Rs. 32·6 and that of maintaining a school Rs. 4,776·2.

SECONDARY SCHOOLS FOR INDIAN BOYS.

[The secondary education of Indian girls and of Europeans is dealt with in other chapters.]

2. **Schools and pupils.**—The total number of secondary schools for Indian boys fell during the year under review from 2,975 to 2,966. High schools increased from 1,076 to 1,103, while middle English schools declined from 1,845 to 1,809. Middle Vernacular schools on the other hand remained stationary at 54. Pupils reading in high schools rose by 7,560, while middle English and middle Vernacular schools reported a loss of 3,627 and 198 pupils respectively.

3. **Expenditure.**—The total direct expenditure on secondary schools for Indian boys amounted during the year under review to Rs. 1,22,96,193 as compared with Rs. 1,22,01,808 in the previous year. Of the total expenditure Rs. 20,46,896 came from public funds and Rs. 1,02,49,297 from private sources against Rs. 21,72,155 and Rs. 1,00,29,653 respectively in the previous year. Reduction of the allotments for departmental grants-in-aid by 10 per cent. owing to financial stringency and inability of some of the district boards to pay grants-in-aid to middle schools regularly throughout the year are responsible for the decrease in expenditure from public funds. High English schools cost Rs. 94,56,310 and middle English schools Rs. 27,85,136, against Rs. 92,77,423 and Rs. 28,68,776 respectively in the previous year. The cost of maintaining middle Vernacular schools decreased from Rs. 55,609 to Rs. 54,747.

4. **Manual instruction.**—Forty-one high and middle English schools had arrangements for giving manual instruction to their pupils, but other secondary schools also are reported to be teaching subjects like dyeing, weaving, carpentry, smithwork, etc.

Manual instruction is imparted with a view to adding interest and diversion to the general course. It is a pity that manual instruction cannot be introduced in all secondary schools of the province owing to the large expenditure involved.

5. **Agricultural education.**—In pursuance of the programme of work outlined in the scheme for the introduction of agricultural classes in non-Government secondary schools, which was sanctioned by Government in 1927, all the teachers of the fourth group, who were deputed

to the Dacca Agricultural Farm for a two-year course of training, successfully passed their examination and returned to their respective schools in January 1933. The names of the schools in which these teachers have commenced work are given below. According to the recommendation of the Director of Agriculture schools were awarded an equipment grant of Rs. 2,000 each for the purpose of starting a farm and of Rs. 550 for a garden :—

	Rs.
(1) Koorapukur L. M. S. Middle English School, district 24-Parganas	2,000
(2) Ula Middle English School, district Nadia	2,000
(3) Beluria Jaladbarani Middle English School, district Murshidabad	2,000
(4) Mathruno N. C. Institution, district Burdwan	2,000
(5) Nalhati H. P. High English School, district Birbhum	2,000
(6) Bakulia Middle English School, district Bankura	2,000
(7) Moyna High English School, district Midnapore	2,000
(8) Kanja Kura Melebono Middle English School, district Bankura	550
(9) Bora Madhusudan High English School, district Hooghly	550
(10) Gayospur Middle English School, district Dacca	550
(11) Falakata Middle English School, district Jalpaiguri	550
(12) Boda High English School, district Jalpaiguri	550
(13) Yusufpur Board Middle English School, district Rajshahi	550
(14) Rangunia High English School, district Chittagong	550

A similar grant of Rs. 550 was paid to the Dalgram Middle English School in Rangpur, the teacher of which was trained in the previous year. The trained teachers of all the batches who are engaged in teaching Agriculture and were recommended by the Director of Agriculture, got a monthly allowance at the rate of Rs. 10 each. During the year in question those schools which incurred a loss on account of the working of their farms and gardens got a grant of Rs. 100 in the case of a farm and Rs. 20 in respect of a garden as a maximum on the recommendation of the Director of Agriculture. Out of the 5 middle English schools of the first batch that started first continuation class in January 1932, one school in contravention of Government order converted the school into a high English school. The other four schools started second continuation class in January 1933 and they are getting Rs. 60 each per mensem. Seven middle English schools of the second batch started first continuation class from January 1933 and they got a grant of Rs. 500 each. The question of deputing a fresh batch of teachers to the Dacca Agricultural Training School is still under the consideration of the department.

6. School Final classes (Science side).—The Science course classes attached to 7 Government high schools in the Presidency had an enrolment of 80 pupils on the 31st March 1933. Out of 52 candidates who were sent up for the School Final Examination (Science Side) 34 were successful.

7. Grant-in-aid system.—The system of grants-in-aid and the principle of distribution have not undergone any radical change.

Certain prescribed standards as regards the scale of expenditure, number and qualification of teachers, minimum roll strength and percentage of passes at the Matriculation Examination are the conditions of grants-in-aid, but in consideration of the peculiar circumstances brought about by the widespread economic crisis, these conditions had to be relaxed to a certain extent in some deserving cases. As a measure of economy the grants-in-aid allotment was reduced by 10 per cent. The managers of some schools had in their turn to reduce the salaries of teachers and to suspend other necessary items of expenditure.

8. Admission and Withdrawal Rules.—There have been complaints in some quarters that the new set of rules for admission, withdrawal, promotion, leave, and fees of pupils in Government and aided schools and other schools recognised by the department, which have been in operation since January 1931, have not worked smoothly and that some of the rules may require amendment in the near future.

9. The new curriculum.—There was no change in the curriculum during the year under report. The teaching of Science in secondary schools is making little headway as the necessary funds are not forthcoming. The immediate effect of the new curriculum has been the introduction of vernacular as a medium of instruction in some high school classes, but it is too early yet to form any opinion as to its working.

10. Experiments in education.—There was nothing in the year under report which deserves special mention. An experiment on merit method has been adopted in class VIII of the Jamalpur Government High School. The aim of the method is to infuse a spirit of competition in the boys and bring the backward boys up to the mark by gradually rousing a willing activity in them. The result is not yet known. The new method of teaching English as devised by Dr. West following the alternative syllabus of studies in secondary schools was introduced in some of the high and middle schools in the Rajshahi Division. The method is still in its experimental stage. The project method which was in operation in Bhimpore Sonthal High School in the district of Midnapore did not bring in very good results and apparently has been given up.

11. Provident fund for teachers in non-pensionable service.—The provident fund for teachers was initiated to give stability to the teaching profession and to make some provision for old age. The University insists on its introduction as a condition of recognition and the department as a condition of grant. Most of the high schools and many well-managed middle schools have some sort of provident fund for the benefit of the teachers. There is, however, a tendency to regard it as a savings bank deposit and frequent withdrawals frustrate its object. The tendency needs to be checked. During the year 1932-33, Rs. 52,200 was allotted in connection with the Government Provident Fund Scheme for teachers in non-pensionable service. The controlling officers have complained about the inadequacy of the existing budget provision. Many schools have expressed their willingness to participate in the scheme, but for want of adequate funds their applications could not be entertained.

12. Results of the Matriculation Examination.—Out of 18,435 boys who appeared at the Matriculation Examination, 1933, 12,140 were declared to have passed. The corresponding numbers in 1932 were 17,054 and 11,010 respectively.

13. **Conclusion.**—The condition of secondary schools particularly of those in rural areas continues to be unsatisfactory. In many cases the salary of teachers has fallen into arrears. The problems which face secondary education to-day are chiefly those of control, curriculum, and finance. At present the schools are under a dual control and the sooner it is unified the better for the schools. The curriculum also needs revision so that it may be of more practical utility to boys. Thirdly, sufficient funds, without which no improvement is possible, are urgently required. There is not the slightest doubt, however, that there are too many secondary schools of very indifferent quality and that there is ample room for amalgamation of some of the schools which might lead to greater efficiency in the remaining schools.

CHAPTER V.

Primary Education.

1. **General statistics.**—During the year 1932-1933 the total number of primary schools for boys and girls in the Presidency rose from 61,162 to 62,719 or by 2·5 per cent. Pupils attending primary schools of all types also increased from 2,116,278 in 1931-1932 to 2,192,130 in 1932-1933 or by 3·6 per cent. The total cost of maintaining primary schools amounted in the year under review to Rs. 81,81,709 as compared with Rs. 81,65,541 in the preceding year. The average annual cost of running a primary school was Rs. 134·4; the cost of educating a pupil was Rs. 3·8.

PRIMARY EDUCATION OF INDIAN BOYS.

[The primary education of Indian girls and of Europeans is dealt with in other chapters.]

2. **Schools.**—Primary schools for Indian boys rose from 43,718 in 1931-1932 to 44,633 in 1932-1933, the increase being shared by all the divisions except Chittagong. The subjoined table indicates the number of primary schools in the Presidency for Indian boys, division by division:—

Division.	1932-33.					1931-32.
	Number of schools managed by Government.	Number of schools managed by District Boards and Municipalities.	Number of schools receiving aid from public funds.	Number of schools not receiving aid from public funds.	Total.	Total No. of schools returned in the previous year.
Presidency Division (excluding Calcutta) ..	30	425	6,532	937	7,924	7,896

Burdwan Division ..	10	491	8,100	893	9,500	9,321
Dacca Division ..	12	1,320	9,356	1,465	12,153	11,810

Total ..	82	4,244	35,519	4,788	44,633	43,718

3. **Pupils.**—On the 31st March 1933 primary schools for Indian boys registered 1,725,040 pupils (including 104,939 girls) as compared with 1,682,275 (including 92,285 girls) on the corresponding date of the previous year. Besides this number the primary classes of secondary schools had 179,511 pupils against 184,184 in 1931-1932. Pupils reading in primary schools for Indian boys and in the primary department of secondary schools therefore numbered 1,904,551 against 1,866,459 in the previous year; thus there was an increase of 38,092 pupils during the year under report. This increase is satisfactory in view of the prevailing economic depression; but the variation in numbers from class to class is so great that only one boy out of 10 at present reaches class V or completes the primary course indicating an enormous waste of money and energy. Of the total Indian male population of school-going age only 49·0 per cent. may be said to be receiving some sort of education.

4. **Hindu and Muhammadan pupils.**—Primary schools for Indian boys were attended by 740,369 Hindus and 969,413 Muhammadans on 31st March 1933 as compared with 720,640 and 941,422 respectively on the corresponding date of 1932. Thus while the number of Hindu pupils increased by 19,729, that of Muhammadan pupils increased by 27,991 during the year under review. Of the total Hindu male population 6·5 per cent. and of the total Muhammadan male population 6·8 per cent. were reading in boys' primary schools on 31st March 1933. In the preceding year the percentages were 6·4 and 6·6 respectively.

5. **Expenditure.**—The total cost of maintaining primary schools for Indian boys amounted in the year under review to Rs. 66,37,904 as compared with Rs. 66,95,818 in the previous year. Of the total maintenance charges Rs. 36,99,075 or 55·7 per cent. was met from public funds, and Rs. 29,38,829 or 44·3 per cent. was borne by private sources. In the previous year public and private funds met 54·1 and 45·9 per cent. respectively of the total expenditure incurred for the maintenance of boys' primary schools. The expenditure from public funds was made up of Rs. 22,11,751 from provincial revenues, and Rs. 7,69,236 and Rs. 7,18,088 from district and municipal funds, respectively. The expenditure incurred on primary education in the year under review by some district boards was smaller than the amount spent by them in the previous year. Reduced income of the district boards concerned from cess due to the prevailing economic crisis is said to be mainly responsible for the smaller expenditure in 1932-1933. The expenditure incurred on primary education by municipal boards increased by Rs. 30,000 mainly on account of larger expenditure incurred by the Corporation of Calcutta.

6. **Panchayeti Union schools.**—The number of Panchayeti Union schools for boys rose from 895 in 1931-1932 to 904 in 1932-1933. A sum of Rs. 1,39,520 was sanctioned during the year under review for the maintenance of Panchayeti Union schools for boys and girls. But no additional grant could be sanctioned for expansion of the scheme, nor could any money be provided for raising the pay of Board primary school teachers, although the proposal was administratively approved some years ago. Further expansion of the scheme must necessarily be postponed till the Bengal (Rural) Primary Education Act, 1930, comes into operation, when Panchayeti Union schools will be taken over by the District School Boards to be formed under the Act and developed according to the needs of the unions served by them.

7. **Primary Schools under Mr. Biss' scheme.**—Pending the introduction of the Primary Education Act, 1930, extension of the scheme to rural areas has been suspended. The establishment of 2 new primary schools of this type in the town of Dacca was sanctioned during the year under report; the scheme involves a capital expenditure of Rs. 400 besides a recurring cost of Rs. 2,040 annually. Half the cost—both capital and recurring—of the scheme is borne by Government, the other half being found by the local body entrusted with the working of the scheme. A revised scheme for the introduction of free and compulsory primary education of all boys, not being less than six or more than ten years of age in the Chittagong Municipality was also sanctioned during the year under review. The scheme is spread over a period of five years beginning with the year 1932-1933, and the expenditure both capital and recurring, involved in the scheme is estimated at Rs. 1,20,700, Government share of the cost on half and half basis being Rs. 60,350 or Rs. 12,070 annually during the five-year period.

8. **Primary schools in Calcutta.**—On the 31st March 1933 there were in Calcutta 483 primary schools for Indian boys attended by 39,017 pupils as compared with 477 schools having 37,852 pupils in the previous year. Of these pupils 24,507 were Hindus and 13,113 were Muhammadans, the rest being of other communities. Boys reading in primary schools and in the primary department of secondary schools together numbered 51,020 on 31st March 1933, against 49,396 on the corresponding date of the previous year. The total cost of maintaining the primary schools in Calcutta amounted to Rs. 7,27,830 as compared with Rs. 6,82,378 in the year preceding. Of the total expenditure Rs. 6,11,840 was met from public funds and Rs. 1,15,990 came from private sources. The Corporation free primary schools for boys which are included in the above figures rose in number from 146 to 147.

The Corporation of Calcutta have prepared a scheme for the introduction of free compulsory primary education in Ward No. IX of the city without levying any education cess and without any subsidy from provincial revenues. The scheme was sanctioned by Government in January 1933 and will come into operation shortly.

9. **Night and continuation schools.**—On the 31st March 1933 the Presidency had 1,187 night schools with 28,619 pupils reading in them. The night schools, which usually teach the lower primary course, are held in the evening for about two hours daily and are attended mostly by adults who are unable to attend day classes owing to their occupations.

The continuation schools which are found only in the Presidency Division and Calcutta are of two types—group I and group II schools. Both types are held in the evening. The former teach simply the 3R's and are attended by boys who are otherwise employed during the day. The latter teach adults who have completed the preliminary primary course in an ordinary primary school or in a group I school. The subjects taught in group II schools are arithmetic, a language and a technical subject usually tailoring, carpentry, hat-making, book-binding or typewriting. On the 31st March 1933 there were 225 continuation schools in the province which taught 6,392 pupils at a cost of Rs. 16,893 from public funds. But neither the teachers nor the pupils take seriously to the study of the technical subjects, and endeavours are being made to bring home to the teachers and the pupils the great utility of technical subjects in the career of the pupils.

10. **Examinations.**—During the year under report 16,672 boys appeared in the Primary and Muktab Final Examinations, and of these 11,286 were successful. The corresponding figures for the previous year were 13,956 and 8,884 respectively.

11. **Teachers.**—The number of teachers employed in boys' primary schools rose from 65,435 in 1931-1932 to 67,556 in the year under review, of whom 21,600 were trained and 45,956 were untrained. In the previous year there were 19,379 trained and 46,056 untrained teachers teaching in boys' primary schools.

12. **Scholarships.**—During the year 1932-33 the system of the award of primary scholarships remained unchanged. The number and value of the preliminary primary and final primary scholarships have been stated in full in the last Quinquennial Review. The former are awarded by local bodies and the latter by the Inspector of Schools. The makeshift arrangement for the payment of preliminary primary scholarships by Government through the District Inspector of Schools out of certain grants made over to local bodies still continues.

13. **Double-shift system.**—The double-shift system of attendance of pupils in primary schools on the lines of Mr. Biss' scheme was continued in five primary schools in the district of Bogra as an experimental measure. "It is premature," says the Inspector of Schools, Rajshahi Division, "to hazard any opinion on the success or otherwise of the scheme."

14. **Bengal (Rural) Primary Education Act, 1930.**—Pending the introduction of the full scheme which will have to be postponed until the financial position improves, Government have sanctioned an optional scheme for such of the district boards as will agree to place at the disposal of the District School Boards to be formed under the Act, their existing allotment for primary education. The District Boards of Mymensingh, Chittagong, Pabna, Dinajpur, Noakhali, Birbhum and Bogra have signified their assent to participate in the optional scheme and a notification to this effect has been issued by Government. The scheme will come into operation from 1st April, 1934.

15. **School post offices.**—The number of teachers who worked as school postmasters during the year under review was 289 against 269 in the previous year. The remuneration for postal work varied as before from Rs. 5 to Rs. 20 a month.

CHAPTER VI.

The Training of Teachers of Indian Schools.

A.—TRAINING OF MEN TEACHERS.

1. **Training colleges.**—The two Government Training Colleges at Calcutta and Dacca which train teachers of secondary schools together registered 151 pupils on 31st March 1933, against 144 on the corresponding date of the previous year. All the students read the B. T. course. The deputation of Government officers to both training colleges has now

been temporarily suspended as a measure of economy. The majority of the students admitted to the two training colleges last session were aided school teachers and young men intending to take up the work of teaching. The demand for admission to the B. T. class in both colleges was so great that over 800 graduates applied for admission to the preliminary test which was held for the purpose of selecting candidates.

The most noteworthy event of the year under review was the recommendation made by the Bengal Retrenchment Committee, 1932, for the temporary closing down of one of the training colleges and the suspension of the award of stipends, until the financial crisis is over. As the demand for training in pedagogy is daily increasing, the Department of Public Instruction had to protest against the acceptance of the recommendation by Government. The next report will show what measures of economy are ultimately adopted.

During the year under review a report was submitted by Mr. A. H. Harley, Principal, Islamia College, on the result of an investigation into the teaching of classical languages in schools, and of the means for improving it. The report laid some stress on the need for the training of classical teachers, and provision has accordingly been made for the annual admission in each training college in future of 4 students—2 Hindus and 2 Moslems—having the minimum qualification of B.A. (Honours) or M.A. in classical language. These candidates are required to take the classical languages in which they are proficient as one of the three special subjects for their training.

2. David Hare Training College, Calcutta.—On the 31st March 1933 there were 69 students under training as against 61 in the preceding year. The cost of maintaining the college amounted in the year under report to Rs. 49,469 as compared with Rs. 57,459 in 1931-32. Out of 69 students, who appeared in the B.T. Examination in 1933, 52 were successful. The new B.T. syllabus was introduced last session. The revised syllabus, which provides for six written papers instead of four as in the old syllabus and duly emphasises the professional side, is much more exacting than the old; in the new syllabus the paper on Educational classics has been replaced by a compulsory paper on English. The college lost by death Professor Benoy Bhushan Sarkar, who worked there for about 16 years. The question of remuneration for the supervision of practice teaching by the students-in-training was settled by withdrawing Government schools with effect from the session 1932-33 from the scheme of remuneration and providing a lump sum only for selected teachers of privately managed schools in which practice teaching may be conducted. The class work was supplemented by special lectures on subjects such as "The Ajanta," "The Principle of the Radio," "Work of the Red Cross Society," "The Conquest of the Air," "Delhi Past and Present," "The Picture Galleries of Italy," "Canada and Newfoundland" and by visits to the Alipore Observatory, the Blind School and the Victoria Memorial Hall. Games were compulsory. The hostel rules were recast during the year and approved by the department.

3. The Teachers' Training College, Dacca.—The college enrolled 82 pupils on 31st March 1933 against 83 on the corresponding date of the previous year; 17 of these students came from Assam. The maintenance charges of the college amounted to Rs. 71,827 as compared

with Rs. 77,509 spent for the purpose in the year preceding. Of the 81 students who appeared in the B.T. Examination in 1933, 79 were declared to have passed. Investigations were carried on, as previously, in the best methods of teaching English, Grammar and Bengali. A note on the teaching of Bengali in high schools prepared by Principal G. Bhattacharyya was printed and circulated by the department during the year under report for collection of opinions with a view to recommending certain definite methods to be followed in the classes. Some of the students-in-training, who took educational measurement for proficiency carried on investigations in (1) Bengali Vocabulary of high school students, (2) Will-temperament tests and (3) Growth of the idea of distance. The tutorial work of the college was so arranged that each student might meet the teacher of each subject once a week. Physical education continued to be compulsory. Of the many papers written by the college staff—two by Principal G. Bhattacharyya, viz. "The New Curriculum and Teachers of English" and "The Teaching Profession in Bengal and its Training" were read at the All-India Federation of Teachers' Association held in Lahore, and another by Professor A. K. Dutta, viz., "General Knowledge of Bengali Graduates" was read at the All-India Science Congress, 1933.

4. **State scholarships.**—The two State scholarships which have been created for the professional training in the United Kingdom of 2 graduate teachers employed in secondary schools in Bengal were not awarded in the year under report on account of financial stringency.

5. **Normal schools.**—On the 31st March 1933 there were 5 (the same number as in the year before) normal or first-grade training schools in the Presidency; all these schools, of which there is one in each division, are maintained by Government. The normal schools registered 414 pupils on 31st March 1933 as compared with 428 on the corresponding date of the previous year. The total cost of maintaining them amounted in the year under review to Rs. 1,21,150, almost the whole of which was met from provincial revenues. Of the 229 candidates who appeared in the Final Examination from first-grade training schools 205 were successful. The curriculum of normal schools is regarded by most of the Divisional Inspectors of Schools to be out of date, now that matriculates are admitted to them in larger numbers. The Hooghly Training School continued to impart instruction in first aid and ambulance work; 41 students of the school obtained proficiency certificates in these subjects during the year under report.

6. **Guru and muallim training schools.**—The total number of guru and muallim training schools, which train teachers of boys' primary schools and maktabas was 86 on 31st March 1933 (as against 86 in the preceding year); they were attended by 2,179 students as compared with 2,153 in the year 1931-32. Of the guru and muallim training schools 80 were managed by Government, one by the Corporation of Calcutta and the rest by Missionary Societies. Of the Government guru training schools 31 were of new type and the rest of old type. It is the policy of the department to replace old type guru training schools by new type schools as funds become available. The total maintenance charges amounted in the year under review to Rs. 3,51,838, of which Rs. 328,396 was borne by provincial revenues; in the previous year the corresponding figures were Rs. 3,43,103 and Rs. 3,24,279, respectively. Of the 2,167 candidates who appeared in the Final Examination from

these schools 1,739 were successful. The Church Missionary Society Training School at Hat-Chapra instructs the guru pupils in agricultural and rural sciences besides teaching the training school subjects.

The demand for admission to guru training schools has increased in consequence of the passing of the Rural Primary Education Act and students with higher qualifications than middle English or middle Vernacular have of late sought admission to these schools.

B.—TRAINING OF WOMEN TEACHERS.

7. Training colleges for women.—Pending the establishment of a Women's Training College by Government in Calcutta women teachers of secondary schools continued to receive professional training at the training departments attached to the Diocesan College and Loreto House. The former had 13 students under training on 31st March 1933 and the latter had 22. The cost of maintaining the Diocesan College Training Department amounted in the year under review to Rs. 6,309 which was met entirely from provincial revenues. The cost of running the Loreto House Training class has not been shown separately by the college authorities. The Diocesan College and the Loreto House presented 15 and 7 candidates respectively at the last B.T. Examination and of these 10 and 7 respectively were successful. The Loreto House passed 14 students out of 15 presented at the last L.T. Examination. As reported already the authorities of the Diocesan College have decided to close down the Training Department from May 1934. The provision of other facilities for training women secondary school teachers in Bengal has therefore become a problem of paramount importance.

8. Training schools for women.—The number of training schools and classes which afford training facilities to women teachers employed in primary schools and the lower classes of secondary schools remained unchanged at 10. Of the training schools 3 were, as before, directly managed by Government and 7 by Christian and Brahmo Missions. The women's training schools registered 241 pupils on 31st March 1933 as compared with 234 on the corresponding date of the previous year. The total cost of maintaining the training schools for women amounted in the year under report to Rs. 77,591, of which Rs. 61,201 was met from provincial revenues; the corresponding figures for the previous year being Rs. 84,052 and Rs. 65,417 respectively. The women's training schools are greatly handicapped for want of an adequate number of stipends. A proposal, which is now under consideration by the Training Board, has been made to amalgamate the Hindu and Moslem women's training schools in Calcutta with separate hostel accommodation for the boarders. The proposal, if it materialises, will undoubtedly improve the standard of training, particularly of the Moslem students, who are reported to be backward. The officiating Inspectress of Schools, Dacca Circle, considers the existing facilities for training women teachers to be hopelessly inadequate and suggests that training centres should be started at district headquarters in connection with high and middle English schools for training women teachers. Altogether 21 candidates appeared in the Senior and 88 in the Junior Vernacular Teachership Examinations in the year under report; of these students 17 and 55 respectively were declared to have passed.

CHAPTER VII.

Professional and Technical Education.

1. **Law colleges and classes.**—Facilities for the study of Law were provided, as in previous years, by the University Law College, Calcutta, and the Law Departments of the Ripon College and the University of Dacca. The number of students reading in the three institutions fell from 2,527 to 2,334. Of the total enrolment 1,945 were Hindus and 368 were Muhammadans; the rest belonged to other communities. The total cost of maintaining the University Law College and the Law Department of Ripon College amounted in the year under report to Rs. 2,21,160 as compared with Rs. 2,72,060 in the previous year. The expenditure incurred for the upkeep of the Law classes attached to Dacca University, which has not been shown separately in the University returns, is included in the General Tables under the head "Universities." Of the 1,460 students who appeared in the Final B. L. Examination from the three institutions 726 were successful.

2. **Medical colleges and schools.**—Advanced medical education was provided, as before, by 3 institutions in the Presidency, viz., the Calcutta Medical College, the Carmichael Medical College, Belgachia, and the School of Tropical Medicine and Hygiene. The three institutions together had 1,331 students (including 17 women) on 31st March 1933 as against 1,318 students (including 15 women) on the corresponding date of 1932. Of the total roll strength 1,182 were Hindus, 85 were Muhammadans and 64 were of other creeds. The upkeep of the 3 institutions cost Rs. 8,81,311 during the year under report as compared with Rs. 9,48,723 in the previous year. In the Final Examination the three institutions passed 178 students out of 515 that appeared. Practical hygiene work of D. P. H. students is now being done in the All-India Institute of Public Health and Hygiene, which was officially opened at the end of 1932.

As in the previous year there were 9 recognised medical schools in the Presidency attended by 2,387 students (including 30 women) as compared with 2,418 students (including 26 women). Of the total enrolment 2,104 were Hindus and 241 were Muhammadans, the rest being of other creeds. The cost of maintaining medical schools amounted in the year under report to Rs. 5,51,871 as against Rs. 4,91,355 in the preceding year. The medical schools presented altogether 959 students at the Final Examination, of whom 496 were declared to have passed.

3. **Veterinary College, Belgachia.**—The Veterinary College, Belgachia, had 176 pupils on 31st March 1933 as against 169 in the previous year. Of the enrolment 112 were Hindus and 30 were Muhammadans; the rest came from other communities. The maintenance charges of the college amounted to Rs. 1,73,243 as compared with Rs. 1,88,394 in the previous year. Out of 175 students who sat for the Annual Examination 125 were successful.

4. **Bengal Engineering College.**—On the 31st March 1933 the Bengal Engineering College, Sibpur, reported an enrolment of 288 pupils (viz., 167 in the Civil Engineering classes, 74 in the Mechanical

and Electrical Engineering classes and 47 in the Industrial classes) as compared with 307 in the previous year. Of these students 239 were Hindus, 39 were Muhammadans and 10 were Europeans and Anglo-Indians. The cost of maintaining the college amounted in the year under review to Rs. 3,60,495, of which Rs. 2,96,058 was borne by provincial revenues; the corresponding amounts in the previous year were Rs. 3,98,599 and Rs. 3,39,310 respectively. The average annual cost per student worked out at Rs. 1,234, of which Rs. 1,014 was met from provincial revenues. The results of the college in the various examinations held during the period under review were as follows:—

Examinations.	Candidates.	Passed
B. E. (Civil Engineering)	38	29
I. Ec.	61	40
B. E. (Mechanical Engineering) ..	7	6
Associate in Mechanical Engineering ..	5	5
Diploma in Mechanical and Electrical Engineering	11	7

Economies, which have been decided upon in connection with the college staff, involve the abolition of the posts of the Demonstrator in Mathematics, the Assistant Professor of Civil Engineering (in place of this appointment the creation of a temporary post in the Bengal Educational Service has been sanctioned), a Foreman Instructor in the Mechanical Engineering Department Workshops, and a workshop Accounts Clerk, besides the appointments of Visiting Lecturers in Water-works, Sewerage and Irrigation. In each case the work done by the retrenched officer is to be performed by the remaining members of the department concerned. Considerable development took place during the period in connection with the Electrical Engineering Department which is now prepared, so far as equipment is concerned, to start the degree course. The two Sibley scholarships of Rs. 80 a month each were awarded by Calcutta University for one year to 2 passed B. E. students on their successful completion of the one-year practical training. The drawing office was considerably extended during the period. The syllabus of studies in Chemistry and Metallurgy for all the classes was revised last year. The strength of the Bengal Engineering College platoons attached to Calcutta University Training Corps continued to be very low. During the year under report seats reserved for Assam students in the Mechanical and Electrical Engineering Departments were reduced to two in response to the wishes of the Government of Assam. With a view to make test-leveilling in the practical examination comprehensive it has been decided by the Public Works Department that the practical examination in surveying should include tests in the use of the prismatic compass, level, plane-table and theodolite, each candidate being examined at least in 2 instruments. In the Practical Examination of B. E. students held at Purulia in November 1932, Babu Manindra Mohan Banerjee, B. E., topped the list of successful candidates.

5. **Ahsanullah School of Engineering.**—On the 31st March 1933 the Ahsanullah School of Engineering, Dacca, had a total enrolment of 433 pupils (172 in the Upper Subordinate, 198 in the Lower Subordinate and 63 in the Industrial classes) against 493 in the preceding year. Of these students 356 were Hindus and 75 were Muhammadans; the rest were of other communities. Besides this number 95 passed

students were receiving practical training under the Public Works and Public Health Departments, railway authorities, local bodies and engineering firms. The cost of maintaining the school amounted to Rs. 1,33,110, of which Rs. 82,877 was borne by provincial revenues; the corresponding amounts in the previous year being Rs. 1,25,376 and Rs. 87,354 respectively. The annual cost of educating a student was Rs. 296, of which Rs. 184 was met from provincial revenues. Mr. C. J. Henderson, the permanent Principal, being on leave out of India preparatory to retirement, Mr. B. C. Gupta, Professor, Bengal Engineering College, officiated in his place. Babu Samaresh Rai Chowdhury, the Assistant Principal, retired from service in February 1933, after 28 years' service, but the post has been kept in abeyance owing to financial reasons. The rush for admission into the First Year Overseer class was heavier last year than previously and many boys had to be refused admission. The number of seats available in the Overseer class for Assam students has been limited to 2 in response to the wishes of the Government of Assam. The number and value of artisan stipends were revised during the year and the total strength of the Artisan class was restricted to 64. The power of awarding scholarships reserved for Moslem students of the institution was delegated to the Governing Body last December. The school passed 73 out of 93 students in the Overseer and 82 out of 121 students in the Sub-Overseer Examination. The mufassal survey camp for practical field work was held at Jaidebpur, where students were sent in 2 batches. Out of 23 candidates who appeared in the annual Pleaders' Survey Examination last February 10 came out successful. The Public Works Department practical examination of passed Overseers, who had completed the prescribed 17 months' training, was held at Dacca in which 11 Bengal students and 3 Assam students appeared. Seventeen artisans also completed their training last session. The value of the work turned out by the school workshops amounted to Rs. 15,629.

6. **Bengal Survey School.**—The Bengal Survey School, Mainamati, reported 65 students (including 4 kanungoes) on 31st March 1933 as against 68 in the previous year. Of these students 59 were Hindus and 6 were Muhammadans. The upkeep of the school cost Rs. 18,540, of which Rs. 13,150 was provided from provincial revenues; the corresponding amounts in the previous year were Rs. 19,766 and Rs. 15,620 respectively. The school passed 19 out of 24 students in the Final Survey Examination and 37 out of 39 students in the Amin Examination. The second year students were out in camp for three months last cold weather during which they carried out survey and demarcation works offered by the Collectors of Dacca and Tippera. The candidate kanungoes attended the camp for three weeks. Passed students of the second year class have been recently declared by Government to be eligible for appointment as district kanungoes.

7. **Art schools.**—On the 31st March 1933 there were 5 art schools in the province as previously, the chief of which was the Government School of Art, Calcutta. Of the four other schools, 3 were in receipt of aid from public funds. The Government School of Art had 254 students in the various departments as against 237 in the previous year. Of these students 236 were Hindus and 8 were Muhammadans, the rest being of other creeds. The cost of maintenance amounted in the year under report to Rs. 42,625, of which Rs. 30,197 was borne by Government; the corresponding amounts in the previous year were

Rs. 44,880 and Rs. 33,400 respectively. Of the 23 students, who appeared in the Final Examination 22 were successful. On financial grounds the Commercial Art Section attached to the school has been allowed to continue on a temporary basis; the Principal considers that the students joining this section have a very bright future. Thirty-three students of the school were awarded scholarships last session. An annual exhibition of drawings, paintings and engravings by the students and teachers of the school was held in December 1932, which was opened by the Hon'ble Mr. K. Nazimuddin, C.I.E., Minister in charge of Education; the cost of the exhibition which attracted numerous visitors and patrons of art, was met from private funds.

8. **Commercial education.**—(i) *In colleges.*—Facilities for advanced commercial education are provided by the two Universities and the Commerce Department of the Vidyasagar College, Calcutta. Of the 23 candidates who appeared in the M. Com. Examination of Calcutta University during the period, 19 passed. Students who obtained the B. Com. degree of the Universities of Calcutta and Dacca last year numbered 90 and 13 respectively, the number of examinees being 183 and 21. Of the 29 students that appeared in the I. A. Examination of the Dacca Board with Commerce as a special subject, 20 were successful.

(ii) *In schools.*—The number of commercial schools in the Presidency remained unchanged at 24 of which one, viz., the Government Commercial Institute, Calcutta, was directly managed by Government. 3 were aided and the rest unaided. The Commercial Institute, Calcutta, registered 373 pupils on 31st March 1933 as compared with 365 in the previous year. Of the total enrolment 348 were Hindus and 15 were Muhammadans, the rest of the students being of other communities. The upkeep of the school cost during the year under report Rs. 65,616, of which Rs. 39,848 was borne by provincial revenues; the corresponding figures for the previous year were Rs. 71,690 and Rs. 46,824 respectively. Of the 62 students that appeared from this school in the Final Commercial Course Examination 44 were successful. In the Special Commercial Course Examination 57 students passed out of the 91 candidates who presented themselves. It has been recommended by the Bengal Retrenchment Committee, 1932, that the institution should be closed down, but the Governing Body of the institution are unanimous in the opinion that it should be retained, although curtailment of expenditure might be possible. The matter is under the consideration of Government. Mr. M. K. Ghosh, M.A. (Cal.), B.COM. (Lond.), has resigned and Mr. D. L. Dutta, Lecturer in Shorthand and Typewriting, has been acting as Principal since 28th February 1933. A Common Room was started in the beginning of the last session, and an annual fee of Re. 1-8 was realised from each student. The Final R. A. Examination of the Accountancy Board, Government of India, is to replace the G. D. A. Examination of the Accountancy Board, Bombay, after 1934. The Remington Typewriter Company which have awarded gold and silver medals on the results of the institute's Typewriting Examination since 1905, have withdrawn their offer for economic reasons. During the year under report 2 commercial schools in Calcutta and one in Mymensingh were temporarily affiliated to the Government Commercial Institute.

9. **Weaving schools.**—The weaving schools of the province are, like other types of industrial schools, under the control of the Department of Industries. The most important of these schools is the

Government Weaving Institute, Serampore. It registered 147 pupils on 31st March 1933 against 138 on the corresponding date of the previous year, of whom 108 were Hindus, 30 were Muhammadans and 9 of other creeds. The maintenance charges of the institution amounted in the year under report to Rs. 37,075, of which Rs. 35,749 was borne by Government; the corresponding amounts in the previous year were Rs. 41,033 and Rs. 39,867 respectively. Mr. A. J. Nathani, the Principal, having died during the year, the Dyeing Lecturer was in charge of the institute till the end of the year in addition to his own duties. Six women passed out of the Female Industrial class last session; this class has been working on a temporary basis ever since its inception in 1926. In the Final Diploma Examination 7 out of 9 students that appeared were successful. In the City and Guilds Examination held in April and May 1932, 15 students of the institute passed in Plain and Fancy Cotton Weaving and Spinning. Forty-two artisan students also completed their training last session.

10. **Music schools.**—The number of music schools in the Presidency rose from 8 to 10 during the year under report, of which 6 received aid from public funds, the rest being unaided. They together taught 504 pupils on 31st March 1933 as compared with 300 on the corresponding date of 1932. The increase in numbers is due to the fact that the Calcutta School of Music was not shown under this head in previous years.

11. **Agricultural education.**—There is no institution in Bengal for imparting agricultural instruction of a higher or collegiate type. As regards agricultural education in secondary schools a detailed account of the progress made in connection with the introduction of the sanctioned scheme has been included in Chapter IV of this report. Of the 5 agricultural schools in the Presidency 2 were directly managed by Government and 3 received aid. These schools altogether had 161 pupils on 31st March 1933 as compared with 141 in the previous year.

12. **Other technical centres.**—Among the technical schools of the province the undermentioned institutions must be mentioned in this report, as they impart vocational education and are thus classed as senior technical schools:—

- (i) The Calcutta Technical School registered 175 pupils on 31st March 1933, against 183 in the previous year. The upkeep of the school cost Rs. 55,722 during the year under report, of which Rs. 38,050 was provided from provincial revenues. Of the nine students, who sat for the Board of Control's Technical School Annual Examination held in 1933, 67 per cent. are reported to have passed. Five out of 7 students passed the Examination of the Electrical Wiremen Course. This course has been extended from 6 months to one year, and that in plumbing and sanitary fitting from 2 to 3 years. The Sanitary Inspectors' class previously held in the school by the Department of Public Health has been discontinued.
- (ii) The Kanchrapara Technical School reported 77 students on 31st March 1933 as compared with 68 on the corresponding date of 1932. The cost of maintaining the school amounted in the year under review to Rs. 76,170, of which Rs. 33,170 came from provincial revenues. Of the 52 candidates sent

up for the Board of Control's Annual Examination 42 were successful. A revised scheme of training Apprentice Mechanics was introduced in July 1932, which involves, among other changes, the raising of the age-limit of recruits from 18 to 19 years, and reduction of the apprenticeship from 6 to 5 years. As a measure of retrenchment the post of the Workshop Instructor, which fell vacant in June 1932, has been kept in abeyance.

CHAPTER VIII.

Education of Indian Girls and Women.

1. **Institutions and pupils.**—At the close of the year 1932-33 there were in Bengal 18,538 educational institutions of all grades and types for Indian girls having a total enrolment of 500,307 pupils; the corresponding numbers in the previous year were 17,898 and 464,850 respectively. Thus the number of schools meant for Indian girls increased by 640 and that of pupils attending them by 35,457 during the year under review. Girls reading in girls' schools together with those who were under instruction in boys' schools numbered 602,361 on 31st March 1933. Of this total 256,087 were Hindus and 335,105 were Muhammadans; the rest were of other communities. Altogether 8,633 boys were attending girls' schools during the year.

2. **Controlling agency.**—There were as previously 2 Inspectresses and 12 Assistant Inspectresses of Girls' Schools in the Presidency; these officers were distributed equally between East and West Bengal.

3. **Collegiate education.**—During the year 1932-33 the number of arts colleges for Indian women rose from 4 to 6 including the Women's Section of Vidyasagar College, which counts as a separate unit, and the Intermediate classes started at the Victoria Institution, Calcutta. Two of the arts colleges, viz., the Bethune College, Calcutta, and the Eden Intermediate College, Dacca, are, as before, directly managed by Government; the rest are under private management, one, viz., the Diocesan College being aided. The women's colleges registered 508 students on 31st March 1933, as compared with 366 on the corresponding date of the preceding year. Besides this number there were 346 girls reading in arts colleges for men and in the University classes. The Ashutosh College, Calcutta, and the Brojo Mohan College, Barisal, have opened separate sections for women. In August 1932 the proposal to admit women students in the Krishnagar College was approved by Government.

The Bethune College had 95 students on 31st March 1933 as compared with 149 on the corresponding date of the previous year: this large decrease was occasioned by a large number of transfers from the college at the beginning of the year. The cost of maintaining the college amounted in the year under report to Rs. 80,561 of which Rs. 74,283 was borne by provincial revenues. The cost of educating a student was Rs. 885 annually, of which Rs. 816 was met from provincial revenues. Out of 19 students who appeared in the B.A. Examination from this college, 17 were successful. In the Intermediate Examination 23 passed out of 24 girls in Arts, and 5 out of 5 girls in Science. The college has not yet been able to secure affiliation in Civics. The Christ Church

School premises, which have been acquired for providing hostel accommodation to the students of Bethune College, will need extensive repairs and alterations, before they can be used for the purpose. The college union was reorganised and the college magazine was placed on a sound financial footing last session.

On the 31st March 1933 the Eden Intermediate College, Dacca, had 66 students as compared with 61 in the previous year. The cost of maintaining the college department amounted in the year under report to Rs. 21,819, of which Rs. 17,918 was borne by provincial revenues; and the cost per pupil was Rs. 247 annually of which Rs. 242 was met from provincial revenues. Of the 24 students, who appeared in the last Intermediate Examination in Arts, 21 passed. A "Sports Club" has been organised, and lectures on first aid and home nursing are regularly delivered. The new Principal, Miss Alphonso, M.A. (LONDON), took over charge of her duties on 4th July 1932.

The subjoined statement gives the particulars of arts colleges for women under private management:—

The Diocesan College admitted last session first year students only, as the authorities have decided to close the college in 1935. The students of the Women's Section of Vidyasagar College and Brojo Mohan College attend classes in the morning.

4. **Secondary schools.**—(i) *High schools.*—The number of high English schools for Indian girls rose from 36 in 1931-32 to 39 in 1932-33; the starting of new high schools for girls at Calcutta, Faridpur, and Patharghata (Chittagong) accounts for the increase. Of the high English schools for girls 5 were managed by Government, 30 were aided by the department, and the rest were unaided. The total number of girls reading in high schools also increased from 10,655 to 11,452. In the Matriculation Examination held in 1933 547 girls out of 813 were successful; the corresponding numbers in the previous year were 394 and 608 respectively. The Gokhale Memorial School, Calcutta, prepares students for the Matriculation Examination of Calcutta University as well as for the Cambridge Examinations. The authorities of the Isan

Institution—a high school for boys in Faridpur—have opened a girls' section in the school and have appointed a Lady Superintendent; the first four classes of the girls section are taught separately in the morning from 6 to 10 a.m.

(ii) *Middle Schools*.—During the year under report the number of middle English schools for Indian girls decreased from 58 to 57 but the number of girls reading in them rose from 8,208 to 9,083. The number of Middle Vernacular Schools for girls was 11 against 8 in the preceding year; these schools were attended by 982 girls on 31st March 1933 as compared with 1,208 on the corresponding date of the previous year.

5. **Primary schools**.—At the close of the year under review the Presidency had 18,067 primary schools for Indian girls having 563,358 girls on their rolls, the corresponding figures for the previous year being 17,425 and 518,544 respectively. The number of panchayati union schools for girls, which are better housed and equipped than aided primary schools, remained unchanged at 167; but the free primary schools for girls managed by the Corporation of Calcutta increased by one during the year under review. The latter registered 12,438 pupils in 1932-33 as compared with 11,813 in the year preceding. In these schools the Corporation has employed a well-paid and qualified staff; each of the mistresses gets besides her pay a conveyance allowance of Rs. 10 a month. A scheme for the improvement and expansion of free primary education for girls within the area of the Chittagong Municipality was sanctioned by Government during the year under review. The scheme extends over a period of six years and provides for the improvement of 11 existing girls' primary schools. For the education of peasant girls in remote places, there are 22 peasant girls' primary schools, all of which are located in the Presidency Division. Of the aided primary schools for girls, those that receive aid from the department or municipalities, are much better off than schools aided by district boards. Private agencies such as the Society for the Improvement of Backward Classes and Missionary Societies have done most valuable work for the spread of education among Indian girls by maintaining numerous girls' primary schools in the province. It is regrettable that some of the best-managed mission primary schools for girls had to be closed down last year for lack of funds. The Uttarpara Hitakari Sava continued to encourage female education by holding examinations and awarding scholarships to girls.

6. **Special schools**.—In 1932-33 the number of technical, industrial and other special schools for Indian girls fell from 44 to 43; these schools taught altogether 2,138 pupils as compared with 1,879 in the previous year. The subjects of study for special schools are devised with a view to help the girls to earn an independent living in future; the subjects that are usually taught are needlework, lace-making, weaving, spinning and tailoring, besides general education. On this subject the Inspectress for East Bengal states thus:—"More industrial schools on other lines such as poultry-rearing, dairy work, farm work and other cottage industries need to be organised for the benefit of those girls who have no aptitude for literary acquirement beyond a certain stage."

7. **Zenana education**.—On the 31st March 1933 there were 14 zenana governesses, who taught altogether 551 women. The object of the zenana system of education is to spread literacy among married purdah women; for various reasons stated in previous reports that object has not been realised. The abolition of the appointments of zenana governesses

has been under consideration. The posts, which were created on a grant-in-aid basis, have been abolished since the year under review and it has been decided that the money thus saved will be utilised for the improvement of education among Moslem girls.

8. **Needlework.**—The quality of needlework done in urban girls' schools is steadily improving owing chiefly to the supervision given to it by the peripatetic needlework teachers, but for want of adequate conveyance allowances the work is limited within a certain area. The Lady Carmichael Diploma also has given an impetus to the work. The Inspectress of Schools, Dacca Circle, suggests that needlework should be made a compulsory subject for girls' primary schools.

CHAPTER IX.

Education of Europeans and Anglo-Indians.

1. **Schools.**—On the 31st March 1933 there were, as in the previous year, 69 institutions in Bengal for the education of European and Anglo-Indian students. Excluding the Bengal-Nagpur Railway Apprentices' Night School, Kharagpur, the returns of which were not received in time, reports show 68 schools. Of the 68 institutions, 3 are for special instruction and 65 for general education. The 3 institutions, which impart special instruction are (1) the Commercial and Technical classes attached to the Young Women's Christian Association, Calcutta, (2) the Dow Hill Training College, Kurseong, and (3) the Children's House, Kurseong. The 65 institutions for general education include 24 secondary, 19 higher grade, 21 primary, and one ungraded schools. Only 3 of the schools for European children, viz., the Victoria Boys' School, the Dow Hill Girls' School and the Dow Hill Training College for School Mistresses, Kurseong, are directly managed by Government; the rest are controlled by various religious and philanthropic societies and railway authorities.

2. **Pupils.**—The table below shows the distribution of the 68 European schools under various agencies with their roll strength:—

	1931-32.		1932-33.	
	Number of schools.	Number of pupils.	Number of schools.	Number of pupils.
Government	3	376	3	361
Church of England	9	1,875	9	1,873
Church of Rome	30	6,535	30	6,769
Non-conformist	5	810	5	812
Undenominational	18	1,497	17	1,405
Jews	3	363	3	324
Armenians	1	130	1	120
Total	69	11,586	68	11,664

The total number of pupils reading in European schools on 31st March 1933 thus increased by 78. Of the 11,664 pupils 6,437 were boys and 5,227 were girls; the corresponding numbers in the preceding year were 6,327 and 5,259 respectively. Thus while the number of boys increased by 1·7 per cent., that of girls decreased by ·7 per cent. The non-European pupils numbered 2,539 in 1932-33 as against 2,323 in the previous year, of whom 1,477 were Jews, Armenians, Indian Christians and others.

3. **Expenditure.**—The upkeep of European schools in the Presidency cost during the year under report a sum of Rs. 35,51,300 (including boarding charges of Rs. 10,82,372) as compared with Rs. 36,73,251 in the previous year. The following comparative table indicates the sources from which this amount was derived:—

		1931-32.	1932-33.
		Rs.	Rs.
(1) Provincial revenues	..	9,06,275	8,33,256
(2) Municipal grant	..	32,793	30,971
(3) Fees	..	17,34,631	16,74,335
(4) Subscriptions	..	9,99,552	10,12,738
		36,73,251	35,51,300

It will be noticed that expenditure decreased in the year 1932-33 under all heads except subscriptions and endowments.

4. **Scholarships.**—An expenditure of Rs. 27,178 as compared with Rs. 21,824 in the previous year was incurred during the year 1932-33 for the award of scholarships to pupils of European schools. This amount excludes the expenditure on scholarships which were awarded in other provinces but paid in Bengal.

5. **Teachers.**—There were 784 teachers employed in European schools during the year ending 31st March 1933, as compared with 793 in the previous year. Of these teachers 137 were graduates; 474 including 86 graduates were trained and 310 including 51 graduates were untrained. In the previous year the number of trained and untrained teachers were 483 and 310 respectively.

6. **Training of teachers.**—Owing to the financial depression no European or Anglo-Indian male teacher was deputed during the year under review to the Chelmsford Training College at Ghoragali for receiving training. It is essential that the practice of deputing suitable candidates for training should be revived as soon as the financial situation permits.

The Dow Hill Training College, Kurseong, which affords training facilities to European and Anglo-Indian female teachers, registered 18 students on 31st March 1933 as compared with 14 on the corresponding date of the previous year. In the annual examination of the second year class held in November 1932, 8 candidates presented themselves, all of whom were successful.

7. **Examination.**—The following table shows the comparative results of the various examinations for which pupils entered in 1931-32 and 1932-33 :—

	1931-32.				1932-33.

*The results of this examination, except for names of candidates who are awarded scholarships on the result of the examination, are not published.

8. **Education of sub-normal children.**—The Children's House, Kurseong, which trains mentally and physically defective European children by special methods, had 24 pupils on 31st March 1933 as compared with 23 on the corresponding date of the previous year. Although the usual monthly grant was not paid to the institution during the year under report yet stipends to the total value of Rs. 2,520 were awarded for the education and maintenance of the children of the House.

9. **Sussex Trust.**—The income of the fund was Rs. 29,751-7-4 during the year 1932-33, and the expenditure for the same period was Rs. 19,311-0-10. This amount was spent on the objects noted below :—

	Rs.	a.	p.
(1) Scholarships to overseas scholars (5) ..	13,612	13	4
(2) Scholarships to local scholars (15) ..	2,348	10	9
(3) Maintenance charges of 3 Sussex Trust schools ..	2,227	3	6
(4) Contingent charges ..	1,122	5	3

Another head of this endowment called "Special Endowment G—Overseas scholarship for European and Anglo-Indian girls (ex-students of the Dow Hill Training College, Kurseong)—has now been created, the income of which is Rs. 3,231-14-4 per annum. The only expenditure that was incurred during the year under this head was Rs. 112-2.

10. **Doveton Trust Fund.**—The total receipts (including the opening balance on 1st April 1933 and the interest on Government securities accrued during the year) derived from the Doveton Trust Fund amounted to Rs. 12,229-15-2, and the total expenditure during the same period was Rs. 10,987-9 leaving a closing balance of Rs. 1,242-6-2. Altogether 27 stipends were awarded during the year. The Inspector of European Schools, Bengal, was administrator of the fund as previously.

11. **Controlling Agency.**—Mr. T. G. Barker continued to act as Inspector of European Schools throughout the year under review. The Bengal Retrenchment Committee, 1932, proposed the abolition of the post of Inspector of European Schools, Bengal, but the proposal has not yet been adopted by Government.

12. **Financial position.**—The financial situation of European schools continues to be bad owing to the prevailing economic depression. The Committee of Management of His Excellency the Governor's Calcutta Schools Emergency Fund relieved the situation to some extent by collecting between 1st May 1932 and 30th April 1933 a sum of Rs. 19,912 with which 247 boys and girls have been wholly or partially assisted in continuing their education. The situation being graver in 1933 than in 1932, the Committee have recommended to His Excellency the Governor the continuance of the fund.

13. **The European Schools Code.**—During the year under review effect could not be given wholly to the provisions of the revised Code of Regulations (1929) for European Schools, owing to financial stringency, which was responsible for a reduction in the amount available for maintenance, teaching staff, and fixed grants to European schools. Power has been delegated to the Director of Public Instruction to sanction the teaching staff and fixed grants at his discretion with effect from the year 1933-34. The rules for "fixed grants" previously framed have been amended accordingly.

Government have also approved of certain additions to the revised Code (1929) in consequence of which physical education will be included in the time-table of all European schools. Proposals have been submitted to Government for a modification in the system of the award of cadet and similar grants. It is hoped that Government sanction to the revised system of award will shortly be received, when necessary alterations will be made in the Code.

14. **European education under the Reforms.**—The Sub-Committee of the Round Table Conference on Anglo-Indian and European education recommended that the education of Anglo-Indians and Europeans should have special protection accorded to it in the several provinces and that means should be found to secure its better co-ordination. To this end they recommended that each province should create a Board for Anglo-Indian and European education, and that in order to secure uniformity of educational standards and co-ordination of Anglo-Indian and European education throughout India an Inter-Provincial Board should be established. Detailed proposals, which the recommendations of the Sub-Committee have necessitated, are now under discussion, and will have an important bearing on Anglo-Indian and European education in India in future and it appears probable that before long a uniform standard of Anglo-Indian education will be evolved in all the provinces.

CHAPTER X.

Education of Muhammadans.

1. **Statistics of Muhammadan pupils.**—In the year under review the number of Moslem students reading in all grades of educational institutions for Indians rose from 1,437,655 to 1,476,797 of whom 1,141,692 were males and 335,105 were females, as compared with 1,084,646 Hindu boys and 256,087 Hindu girls returned on 31st March 1933. The proportion of Muhammadan pupils to the total number of students registered on 31st March 1933 was 51·7 per cent. as against 51·6 per cent. in the preceding year. In arts and professional colleges the proportions of Moslems to the total number of students under instruction on 31st March 1933 were 13·4 and 11·8 per cent. as compared with 13·3 and 12·9 per cent. respectively in the previous year. In the high and middle stages of instruction Moslem students constituted 20·2 and 24·7 per cent. respectively of the pupils of all communities as compared with 18·7 and 24·7 per cent. in the preceding year. In the primary stage the proportion remained stationary at 54·5; and in special schools it declined from 71·5 to 70·6 per cent. The fall in pupils in professional and special institutions was due partly to the widespread economic depression prevailing in the country. The sub-joined table, which gives comparative figures for the last two years, will show that the number of Moslem students increased in arts colleges and secondary and primary stages but decreased in institutions of other grades. The increase in the high stage was due chiefly to the migration of students to high schools after completion of the junior madrasah course.

	1931-32.		1932-33.	
	Number of Muhammadan students.	Percentage.	Number of Muhammadan students.	Percentage.

Professional Colleges	670	12·9	604	11·8

2. **Special institutions for Muhammadans.**—Besides the ordinary schools and colleges, which are open to students of all communities, special facilities for higher education are offered to Moslem boys by the Muslim Hall of Dacca University and the Islamia College, Calcutta, which have been dealt with in Chapter III of this report. An account of other institutions, which are chiefly intended for Moslem students, is given in the following paragraphs.

(i) *Islamic intermediate colleges.*—During the year ending 31st March 1933 the number of Islamic intermediate colleges in the province

remained unchanged at 3, two of which are, as previously, maintained by Government and one is aided. The 3 colleges together registered 142 students on 31st March 1933 as compared with 165 on the corresponding date of the previous year. Of the 87 students that appeared in the Islamic Intermediate Examination in 1933, 52 were successful.

(ii) *Madrasahs*.—On the 31st March 1933 there were altogether 710 madrasahs with 66,692 pupils in them, as compared with 743 madrasahs attended by 67,864 students on the corresponding date of the preceding year. Thus the number of pupils reading in madrasahs fell by 1,172 during the period under review, and that of the institutions by 33. Of the total number of madrasahs returned in 1932-33, 608 were of the reformed type, the rest being old type. The cost of maintaining the madrasahs amounted in the year under report to Rs. 13,73,354, of which Rs. 476,378 was met from public funds; the corresponding amounts in the previous year were Rs. 14,49,486 and Rs. 5,30,053 respectively.

(a) *Reformed type madrasahs*.—The number of high madrasahs recognised by the Board of Intermediate and Secondary Education, Dacca, rose during the year under report from 27 to 30. The number of students reading in them also increased by 641. Of the 467 candidates who sat for the last Islamic Matriculation Examination, 206 were successful. It is interesting to note that a Moslem girl passed the examination for the first time from the Dadanchak High Madrasah in the district of Malda. As in previous years, sanction was accorded by Government to the retention of the Tailoring class attached to Chittagong Madrasah for a period of one year. The Hooghly Madrasah continues to occupy unsuitable rooms of the Hooghly College building; a proposal, which is now under the consideration of the department, has been made for transferring the madrasah classes to the building occupied by the Settlement Office, when it is vacated by that office. To improve the efficiency of junior madrasah teachers a short course was held last February by the Assistant Inspector of Schools for Muhammadan Education, Chittagong Division, in which 26 teachers were trained; it is proposed to repeat the experiment twice a year. In the Junior Madrasah Examination held in November 1932, 3,018 students appeared and of these 2,454 were successful.

(b) *Old-type Madrasahs*.—Calcutta Madrasah, which is managed by Government, is the most important of the old-type madrasahs in Bengal which numbered 102 during the year under report. It affords Moslem students facilities for instruction in advanced Islamic courses, and attracts students from other provinces in India as well as from Bengal. Sanction was accorded by Government during the year under report to the continuance of the "Fiqh" title course for a further period of one year. Of the 263 students, who appeared during the period in the different examinations conducted by the Central Madrasah Examination Board, 181 were declared to have passed. Owing to the persistent demand of the guardians, whose mother tongue is Bengali, the teaching of the language as an optional subject has been introduced in the six classes of the Junior Section of Calcutta Madrasah; in the senior classes English translations are done from both Urdu and Bengali. The Calcutta Madrasah was visited by Dr. (now Sir) Ross Masud, Vice-Chancellor, Aligar Muslim University, in July 1932.

(iii) *Maktabs*.—During the year ending 31st March 1933 the number of maktabs or secularised primary schools for Moslems rose from 25,831 to 26,405, of which 16,714 were for boys and 9,691 for girls.

The number of pupils reading in maktaba rose during the period from 859,533 to 867,556; of the total number of pupils 608,519 were boys and 259,037 were girls. The corresponding numbers in the previous year were 614,717 and 244,816 respectively. The number of maktabas and their enrolment have been increasing steadily in spite of the prevailing economic distress in the country; this shows that secularised maktabas, which have provision for teaching both general and religious subjects, are quite popular with Moslem parents. The total cost of maintaining maktabas fell in the year under review from Rs. 22,17,408 to Rs. 21,99,227, of which Rs. 11,31,536 was met from public funds as compared with Rs. 11,07,578 in the previous year.

(iv) *Quran schools*.—The number of Quran schools or unsecularised maktabas fell during the year under report from 524 to 340; these schools were attended on 31st March 1933 by 8,451 pupils, as compared with 13,105 returned in the preceding year. The secularisation of Quran schools and their inclusion among recognised maktabas account for the gradual decline in their number.

(v) *Muallim-training schools*.—The number of muallim-training schools, which are intended to provide maktab teachers, remained unchanged during the period at 6, all of which are managed by Government. These schools had 167 teachers under training in the year under review. The number of schools for training maktab teachers is inadequate in comparison with the increased number of maktabas which have sprung up.

3. **Education of Muhammadan girls**.—On the 31st March 1933, the number of Muhammadan girls reading in all classes of recognised schools was 329,150 as compared with 303,830 in the previous year. Of the total number 11 were in arts and professional colleges, 161 were in the high stage, 290 were in the middle stage, 328,219 were in the primary stage and 469 were in special schools; the corresponding figures for the previous year being 892,225, 302,746 and 759 respectively. The Sakawat Memorial School is the only high school for Moslem girls in the Presidency; the school sustained a heavy loss by the death in October 1932 of Mrs. R. S. Hossain, the foundress. The K. A. B. Suhrawardy Begum Memorial School, Calcutta, and Shamsa Zenana Madrasah, Garden Reach, teach up to the middle English and middle Vernacular standard respectively. There are 2 junior madrasahs for girls in the district of Bakarganj, one of which was opened during the year under review.

4. **Special facilities**.—To encourage Moslem education in the province Government have provided the following facilities, viz., reservation of places in favour of Moslem students in Government and aided schools, grant of special scholarships and stipends to Moslem students and of free-studentship to the extent of 15 per cent. of their own enrolment and higher grant to denominational schools, e.g., 50 per cent. higher grant to recognised maktabas.

During the year under review powers to award some scholarships and stipends reserved for Moslem boys were delegated from the Director of Public Instruction to the Principal, Islamia College, and the Governing Bodies of the Calcutta Madrasah and the Ahsanullah School of Engineering, Dacca.

5. **Advisory Committee.**—The committee which was appointed by Government in 1931 to advise them with regard to the policy to be pursued for the advancement of Moslem education in the Presidency, held their final meetings in March 1933; but the report of the committee has not yet been received.

CHAPTER XI.

Education of Special Classes.

1. **Chiefs and nobles.**—There is no special institution in Bengal for the education of the sons and wards of chiefs and nobles, but in the Nawab Bahadur's Institution at Murshidabad there are special arrangements for teaching the boys of the Nizamat family. These boys reside in a separate hostel under the supervision of the Head Master who is assisted by an Ataliq. The number of Nizamat boys under instruction on 31st March 1933 was 26 against 24 in the previous year. The upkeep of the hostel reserved for the Nizamat boys costs Government Rs. 5,440 during the year.

2. **Education of the children of backward classes.**—The figures quoted below show the number of boys and girls belonging to backward communities that were under instruction in the various grades of institutions in the Presidency on the 31st March 1933, and will give some idea of what progress has been achieved by them in education during the period under report:—

Class of institutions.	Boys.	Girls.	Total.
Arts colleges	1,065	1	1,066
Professional colleges	844	..	844
Secondary and primary schools	351,229	66,459	417,688
Special schools	9,422	478	9,900
Unrecognised schools	6,390	1,332	7,722
Total	368,950	68,270	437,220

The corresponding figures on the same date of 1932 were 375,554, 64,500 and 440,054 respectively. The following paragraphs indicate the progress that was made by the members of these communities during the year in each division of the Presidency separately.

(i) *Calcutta.*—During the year under review there were 11 primary schools for the education of backward classes—8 for boys and 3 for girls—under the management of different Christian missions with 504 pupils in them against 12 schools with 458 pupils in 1931-32. For the maintenance of these 11 schools Government contributed Rs. 4,596 and the Corporation Rs. 541. The primary schools managed by the Hindu Relief Society increased during the year from 17 to 19 with an enrolment of 721 pupils. The Society managed in addition to these schools one industrial school with 121 pupils. The total expenditure on the industrial school amounted during the year under report to Rs. 5,540, of

which Rs. 1,250 was paid by the Corporation of Calcutta. The total number of pupils of backward classes reading in all types of schools in the city on the 31st March 1933 was 12,475 against 12,484 in the preceding year.

(ii) *Presidency Division (outside Calcutta).*—There were 92,693 boys and 15,099 girls of the educationally backward classes under instruction in the various grades of institutions in the division on the 31st March 1933 against 92,316 and 14,363 respectively in 1931-32. There was thus a gain of 377 boys and 736 girls. Of the 616 schools specially intended for backward classes 9 were high, 34 middle and the rest were primary; three of the primary schools were maintained as before by the Sussex Trust Fund. During the year under review 16 middle and 23 special primary final scholarships were awarded to the children of the educationally backward classes.

(iii) *Burdwan Division.*—The Sonthals constitute the bulk of the aboriginal population of the division. Whatever progress has been made in education is chiefly due to the efforts of the American Baptist Mission of Midnapore, the Wesleyan Mission of Bankura and the Society for the Improvement of Backward Classes who have devoted themselves to the amelioration of the condition of backward races. The Sonthal High School at Bhimpore under the management of the American Baptist Mission enrolled 204 pupils on 31st March 1933. The mission had also a middle vernacular school for girls with 80 pupils. The Industrial School for Females at Bhimpore lost its independent existence during the year under report and merged in the middle vernacular school of that place. The Wesleyan Mission in the district of Bankura maintained one middle vernacular school, 2 industrial schools and one guru-training school. There were altogether 266 Sonthal primary schools with 6,846 pupils in 1932-33 against 252 schools with 6,926 pupils in the preceding year. In Midnapore a Special Assistant Sub-Inspector of Schools was posted to look after the education of the Sonthals of the whole district. The total expenditure on Sonthal education in the districts of Midnapore, Birbhum and Bankura amounted during the year under report to Rs. 45,203, of which Rs. 30,780 came from provincial revenues. The total number of children of the educationally backward classes under instruction in all kinds of schools was 128,679, of whom 114,993 were boys and 13,686 were girls.

(iv) *Dacca Division.*—The number of pupils belonging to educationally backward classes returned on 31st March 1933 from all grades of schools in the division was 95,848 against 95,735 in the preceding year. Namasudras form the bulk of the pupils of the non-aboriginal races. During the year under review there were 7 primary schools for muchis, 3 for methors, 16 for fishermen, 2 middle and 36 primary schools for aboriginal tribes and one high and one middle schools for Kapalis. There were 8 high and 31 middle schools for Namasudra pupils. There were 12 primary schools in the colonization area of the district of Bakarganj mainly intended for the Maghs.

(v) *Chittagong Division.*—On the 31st March 1933 the total number of pupils of backward communities studying in the various types of institutions in the division was 31,612, of whom 24,597 were boys and 7,015 were girls, against 23,897 boys and 6,129 girls in the preceding year. During the year under review there were 159 recognised schools in the Chittagong Hill Tracts one of which is the Government High School at Rangamati, 4 middle schools, 153 primary schools and one

training school. In the Cox's Bazar subdivision there were 5 Burmese schools managed by Government. They are intended for the Arakanese Buddhists of the subdivision. Besides, there were one aided middle English school at Ramoo and 2 aided primary schools intended for education of the Mugh pupils in the Cox's Bazar Municipality. In addition to these there were 35 Kayung schools. These Kayung schools impart education to the Burmese boys in the vernacular.

(vi) *Rajshahi Division*.—The total number of pupils of the educationally backward communities enrolled on 31st March 1933 was 58,422 against 54,644 pupils in the preceding year. The Board of Sonthal Education in the districts of Dinajpur, Rangpur and Malda had 72 primary schools under their control in 1932-33. In the Jalpaiguri district there were one secondary and 20 primary schools chiefly intended for the education of the children of aboriginal races other than Sonthals. The total expenditure incurred for Sonthal education in the division was Rs. 22,348, of which Rs. 7,598 was met from provincial revenues and Rs. 5,324 from district funds.

3. **Education of criminal classes**.—In the Jalpaiguri Jail there was an elementary school for the education of the prisoners. The school at Nilphamari is meant for the education of the children of the Karwal Nuts—a criminal tribe—where instruction is imparted in agriculture, weaving and knitting as well as in ordinary primary school subjects. On the 31st March 1933 there were 35 boys and 33 girls against 35 boys and 34 girls in the preceding year. An unaided primary school for the education of the children of the Karwal Nuts below 7 years living in the Karwal Nut Settlement at Saidpur was opened during the year under report. It is under the management of the same Salvation Army. It had 19 boys and 22 girls on 31st March 1933.

The Reformatory and Industrial Schools at Alipore had 198 pupils on 31st March 1933 against 215 on the corresponding date of the previous year. The upkeep of the institution cost Government Rs. 46,420. During the year under report draft rules for the aftercare of the discharged boys were submitted to Government for their consideration. Her Excellency Lady Willingdon paid a visit to the schools on 29th December 1932. One noticeable feature during the period was that 123 boys of the schools were attacked with beri-beri, but there were no deaths.

The Borstal Institution at Bankura, which is under the control of the Inspector-General of Prisons, Bengal, had 182 pupils on its roll against 277 in the previous year. The upkeep of the institution cost Government Rs. 37,812.

4. **Education of defectives**.—On the 31st March 1933, there were 18 European children suffering from mental or physical defects under training in the Children's House, Kurseong. The Blind School at Behala (district 24-Parganas) had 86 pupils including 23 girls in 1932-33. The total expenditure of the school was Rs. 32,842, of which Rs. 7,311 came from provincial revenues. The Deaf and Dumb School at Calcutta had 207 pupils (including 53 girls) on its rolls on 31st March 1933, against 199 in the previous year. The school teaches up to the Final Primary course besides carpentry, painting, book-binding, tailoring, clay-modelling, wood-work, metal-plating, printing, embroidery and needlework. As in the previous year there were 3 aided deaf and dumb schools, one at each of the district headquarters of Dacca, Mymensingh and Bakarganj with 53 pupils in them (including

13 girls). The Deaf and Dumb School at Chittagong had 17 pupils, all boys, on 31st March 1933, and the total cost for the upkeep of the institution was Rs. 1,920, of which Rs. 828 was provided from provincial revenues. The Rajshahi Deaf and Dumb School had 10 pupils on its rolls. Of the total expenditure of Rs. 498 on this school, Rs. 300 came from district funds and Rs. 198 from the Rajshahi Municipality.

5. **Education of factory and colliery children.**—During the year under report there were 6 primary schools (with 856 pupils) in the district of 24-Parganas chiefly intended for the education of factory children. Two of these schools were managed by the authorities of the Rifle and Metal and Steel Factories at Ichapur and one by the mill authorities of Titagarh. The total expenditure incurred for the upkeep of these schools amounted to Rs. 5,188 towards which provincial revenues contributed Rs. 3,104. Besides, 2 middle English schools at Titagarh and Kankinara are largely attended by the children of mill labourers. There is also a Telegu class attached to the Titagarh school for the children of Madras labourers. In the coal mine areas of the Burdwan district there were some colliery primary schools specially meant for the education of the miners' children. Some mills in the Hooghly district maintained or subsidised primary schools for the children of the mill hands. The Banga Lakshmi Cotton Mills had one Hindi and one Telegu primary schools run as free schools. The railway authorities at Kharagpur maintained a primary school for the education of the children of factory labourers.

6. **Tea-garden schools.**—In the Jalpaiguri and Darjeeling districts there were 169 tea-garden schools with 3,225 pupils in 1932-33 against 171 schools and 3,496 pupils in 1931-32. The decrease is ascribed to the bad economic condition of the gardens. The total cost of these schools was Rs. 23,689 towards which public funds contributed Rs. 10,878.

7. **Education of Jains.**—Altogether 487 Jain pupils were returned on 31st March 1933 from the various grades of schools in the Presidency as compared with 270 reported on the same date of the preceding year.

8. **Cantonment schools.**—The cantonment area of Barrackpore had 8 schools with 732 pupils in 1932-33 against 9 schools with 875 pupils in 1931-32. There were one high school for boys, one middle school for girls, 3 primary schools for boys and 3 primary schools for girls. The fall in the number of boys and girls attending primary stages is deplorable and is probably due to the poverty of the labour class people and fall in their population. On the 31st March 1933 there were 2 primary schools, one in the Jalapahar and the other in the Labong cantonment areas in the district of Darjeeling with 108 pupils. The upkeep of these two schools cost Rs. 1,631 which was entirely met by the cantonment authorities.

CHAPTER XII.

Unrecognised Institutions.

1. On the 31st March 1933, there were in Bengal 1,554 unrecognised schools with 65,704 pupils as compared with 1,630 schools attended by 63,164 scholars on the corresponding date of the previous year. These schools do not adopt any of the courses of studies prescribed by the

University of Calcutta, the Board of Secondary Education, Dacca, or the department. The majority of them are small indigenous tols, Koran schools, Kyangs (Buddhist monastic schools) or newly-started primary schools, and are generally inferior to recognised schools in management and discipline. There are, however, notable exceptions, chief among which are the group of institutions at Bolpur and Surul founded by Dr. Rabindra Nath Tagore, where school and college work is conducted on a broader cultural basis than is at present possible in most institutions and where valuable work is being done to effect improvement in village life in the neighbourhood. Mention should also be made of the Kabindra College, Goila, Bakarganj, a seat of higher Sanskrit studies, Aurveda and Hindu Philosophy, and the Mahakali Pathshala at Mymensingh, a girls' school in which special stress is laid on the teaching of religious subjects on orthodox lines.

CHAPTER XIII.

Residence of Students and their Physical and Moral Training.

1. **Hostels.**—During the year 1932-33 the number of boarders residing in the hostels and boarding houses attached to various grades of educational institutions in the Presidency declined from 30,312 to 30,110. Of the total number of boarders returned on 31st March 1933, 24,911 resided in hostels for Indians and 5,199 lived in boarding houses meant for Europeans and Anglo-Indians. Of the inmates of Indian hostels 21,883 were males, and 3,028 were females. Of the European and Anglo-Indian boarders 3,037 were boys and 2,162 were girls.

During the year under report the Hindu hostel attached to Chittagong College, which was ill-adapted for hostel purposes, was closed; the building is being utilised for extra class rooms, which are urgently required. Early in the year sanction of Government was also accorded to the closing of the post-graduate students' mess (a rented house) attached to Presidency College, Calcutta, the boarders of which were transferred to the Eden Hindu Hostel. The grants for the superintendence of hostels attached to non-Government schools and colleges were reduced last year as Government consider that the hostels should be ultimately self-supporting.

2. **Messes.**—Messes have continued to be popular with students on account of their cheapness and absence of strict supervision. The messes (43 including non-collegiate hostels) administered by the Students' Residence Committee of Calcutta University had altogether 2,002 inmates during the year ending 31st March 1933. Those (22 including a non-collegiate hostel) under the management of the Board of Intermediate and Secondary Education, Dacca, accommodated 575 boarders on the same date. Since the year under report the Board of Intermediate and Secondary Education, Dacca, have realised an admission fee of Rs. 2 from each boarder of the college messes and Re. 1 from each boarder of the high school and high madrasah messes. With the receipts derived from admission fees the Board have proposed to create a reserve fund for the benefit of the messes under their control.

3. **Physical education.**—There is evidence everywhere that greater attention is now being paid to physical education by boys and girls, but the chief obstacles to progress are inadequate playing grounds, absence of trained instructors, and adequate apparatus, inadequacy of funds, and the absence of provision for a midday meal; the removal of these obstacles involves steady and continuous work besides much larger expenditure. The Government grant which is given to the Young Women's Christian Association with a view to enable the association to maintain a Physical Directress, who has been helping the girls' schools in organising games and sports, has been continued, but the amount was reduced to Rs. 200 a month during the year under review. In June 1932 administrative approval of Government was accorded to the appointment of a whole-time Games Master on Rs. 75—5—200 a month for each of the two engineering institutions, viz., the Bengal Engineering College, Sibpur, and the Ahsanullah School of Engineering, Dacca.

The establishment of a Physical Training Centre in Calcutta was sanctioned by Government in June 1932 at an estimated cost of Rs. 13,850. The Training Centre was opened in July 1932, and the first session ended in March 1933. Seventeen students joined the training class, of whom 2 were deputed from institutions under private management, and 15 were fresh from colleges. Fifteen students completed the course satisfactorily and were awarded diplomas.

A short course of training for Sub-Inspectors of Schools, and another short course for teachers of guru-training schools were held by the Physical Director during the year under report. The following amounts were allotted last year for the purposes noted below:—

	Allotment.	Expenditure.	Number of schools aided.	Number of officers trained.
	Rs.	Rs.		
(a) For Health and games grants to—				
(i) High schools	6,538	6,527	138	..
(ii) Middle schools	1,050	983	44	..
(iii) Senior madrasahs	250	243	13	..
(iv) Junior madrasahs	250	250	16	..
(b) For training of Sub-Inspectors of Schools	900	408	..	18
(c) For training of Guru-training school teachers	1,000	275	..	17

Western games like football, hockey, tennis, badminton, etc., were, as previously, popular in urban areas, while indigenous games were preferred in rural areas. Swimming and rowing are also encouraged in those places where it is possible to provide the necessary organisation and funds for these forms of activities. The District Boards of 24-Parganas and Khulna spent Rs. 232 and Rs. 180, respectively, for the encouragement of indigenous games and for the purchase of

apparatus. Folk-dances, which are less expensive, have been introduced in almost all schools of the district of Birbhum and in many high schools of other districts in the Burdwan Division. A camp for training teachers of secondary schools in folk-dances and allied arts was organised at Suri during the year under review.

4. **Boy Scouts.**—During the Scout year 1932 there were in the Presidency altogether 52 local associations, 337 Troop officers, 111 Pack officers, 5,447 Scouts, 2,116 Cubs, 412 Rovers, and 131 local association officers as compared with 54 local associations, 330 Troop officers, 98 Pack officers, 5,073 Scouts, 1,756 Cubs, 341 Rovers and 132 local association officers in the previous year. The normal annual grant of Rs. 6,000 was paid to the Calcutta Branch of the Baden Powell Boy Scout Association. On the recommendation of Mr. N. N. Bhose, the Provincial Organising Secretary, Bengal Boy Scout Association, a sum of Rs. 4,000 was also distributed to Government and non-Government schools to assist them in purchasing scout outfit, flags, charts, etc., which are required for the development of the scout movement in these schools. Credit is due to Mr. N. N. Bhose who has put in 16 years' service, and has built up scouting in this Presidency. On the recommendation of His Excellency the Viceroy Lord Baden Powell awarded to Mr. Bhose the Medal of Merit on the eve of the Jackson Shield Competition.

5. **Girl Guides.**—The Girl Guide movement is reported to have been introduced in most of the important high schools and in some well-organised middle English schools for girls. But Guiding is not progressing very satisfactorily in any of the schools except at Dr. Khastagir's High School for Girls, Chittagong.

6. **Medical supervision.**—No funds were available in the year under report for giving effect to the scheme of medical examination and supervision of pupils of Government high English schools and senior madrasahs outside Calcutta. With regard to the medical inspection of the pupils of Government and aided secondary schools in the city of Calcutta, the work, which was carried on in recent years as an experimental measure by 3 part-time medical officers under the administrative control of the Local Self-Government (Public Health) Department, was transferred to that of the Education Department with effect from 1st March 1933. During the year 1932-33 the Medical Board attached to the Students' Welfare Committee of Calcutta University visited 7 colleges and 2 high schools in and around Calcutta. Altogether 2,743 students (including 500 recalled for special examination) were medically examined. One hundred students were kept under observation. A disquieting feature of the findings of the Students' Welfare Committee is the increase in the incidence of malnutrition among school children.

7. **Hygiene.**—Hygiene continues to be a compulsory subject for classes III to VIII, but lessons in Hygiene are also given in all classes of schools. Many schools have also been provided with the requisite charts and diagrams; teaching of formal lessons is not, however, sufficient, and it is desirable that teachers should take every opportunity of correcting habits of boys which are detrimental to health. Lectures and exhibitions illustrated by lantern slides and bioscope films, which were arranged at important centres by members of the Social Service League and other organisations are reported to have been very useful.

8. **Discipline.**—No serious breach of discipline was reported from any school or college during the year under report. The civil disobedience movement has practically subsided and the unrest among

students which was in evidence in the previous year has disappeared at least outwardly. Both roll strength and attendance in educational institutions are stated to have improved. In some colleges students have been divided into small groups, each group being allotted to a member of the staff who is expected to help and guide the students of his group, and thus to establish a friendly and helpful relation between students and teachers.

9. Religious and moral instruction.—Religious instruction is imparted only in denominational or sectarian schools like tols, madrasahs, maktabas and mission schools. In some institutions there are arrangements for holding weekly classes in religious subjects, but ordinarily lessons on morality only can be attempted through textbooks. First aid classes, poor funds, Boy Scouts, Debating Clubs and other similar organisations however do much in the way of inculcating moral qualities.

10. National schools.—During the calendar year 1932 there were in the Presidency 12 national schools with 1,244 pupils on their rolls as compared with 19 such schools having 1,647 pupils in the previous year; thus the number of schools fell by 7 and that of pupils by 403 during the period under review. No national school in the province conforms strictly to departmental standards. From the reports received by the department it is evident that the influence of these schools is steadily diminishing.

CHAPTER XIV.

Conferences and Committees.

1. The Government of Bengal appointed a fully representative committee in 1930-31 to advise them as to what policy should be pursued for advancing Moslem education in Bengal. Reference has been made to the proceedings of this Committee in previous reports. The recommendations of the Committee are not available, as the report of the Committee has not yet been published.

2. Conferences of superior inspecting officers were held at the headquarters of the Burdwan and Chittagong Divisions. Several important questions relating to the improvement of middle, primary and special schools involving administration of the primary and other grants, necessity of modification of the guru-training school curriculum and other matters connected with the training of teachers and staffing of middle English schools and junior madrasahs besides the recommendations made by the Bengal Retrenchment Committee, 1932, were discussed at these meetings. Informal conferences were also held in the district headquarters by the District Inspectors of Schools with their subordinate officers in which general discussions were held regarding expansion of primary education, improvement of primary schools, prevention of the wastage of pupils in the different stages and distribution of grants. At Calcutta and Dacca, the Assistant Inspectresses of Schools and Head Mistresses of Government girls' high and training schools meet annually to discuss and exchange ideas and views which amount to a real constructive work.

3. The Bengal Women's Education League held its seventh session at Calcutta from 1st to 4th February 1933. Among the resolutions passed by the conference was one that the Bengal Women's

Education League should consider carefully practical ways of meeting the following needs:—

- (i) The need for training in the science of accurate observation and recording of individual children's behaviour.
- (ii) The need for people with a sound elementary knowledge of child psychology to give simple practical lectures to parents, teachers and other groups of interested people.
- (iii) The need to keep in touch with the work of the Mental Hygiene Movement, the new Education Fellowship and other progressive educational and health movements.
- (iv) The need to prepare the way for the establishment of child guidance clinics.

4. The All-Bengal non-Government School Teachers' Conference held its twelfth session at Serampore in April 1933 under the Presidency of Dr. Pramathanath Banerjee, M.A., D.Sc., Bar.-at-Law, in which questions concerning improvement of secondary education and the pay and prospects of teachers of secondary schools were chiefly discussed. An educational exhibition was held there and on that occasion there was a recital of folk-songs and folk-dances. In the Suri Agricultural and Industrial Exhibitions a stall was reserved as previously for educational exhibits.

CHAPTER XV.

Text-Book Committee.

1. During the year under review, the Provincial Text-Book Committee, which was constituted on the 1st September 1929, was reconstituted as the term of three years for which the members were appointed expired on the 31st August 1932.

2. Five hundred and fifteen books received by the Committee by the 31st March 1932 for approval as text-books for secondary schools, were taken up for consideration during the year under report. Of these books 93 were approved. Eleven hundred and three books intended for use as prize and library books, which were awaiting disposal, were considered and 401 books were accepted.

3. The award of the Braja Mohan Dutta Prize for Indian Ladies for 1931-32 to Sreemati Bina Devi, was approved by the General Committee of the Provincial Text-Book Committee at its meeting held on the 19th September 1932, and the subject chosen for the year 1932-33 was "Responsibilities of Educated Women in Modern India."

CHAPTER XVI.

Education in the Legislative Council.

No important motion or resolution on education was brought forward in the Bengal Legislative Council in 1932-33, most of the time at its disposal being occupied with the discussion of recommendations made by the Bengal Retrenchment Committee, 1932, and

of the several Bills introduced by Government and non-official members, and the fact that no serious attempt was made to effect drastic reduction in the grants provided under any head of the Education Budget for 1933-34, seems to show that it was generally agreed that they represented the absolutely minimum amount required for carrying on the varied activities of the department. Among questions of a general nature asked by members two only need be mentioned here, viz., (i) what steps, if any, have been taken by Government to examine the question of deprovincialisation of Government schools and colleges, and (ii) whether Government do not consider it desirable to reduce the rate of school and college fees in view of the prevailing economic distress. In answer to the first question it was stated by the Hon'ble Minister in charge of Education that the matter was under consideration; the second question was answered in the negative. One question was asked with a view to ascertaining whether it was proposed by Government to legislate for reduction of the statutory annual grant to Dacca University in view of the bad state of provincial finances, in reply to which it was stated that no such proposal was before Government. In the sphere of primary education questions were asked more than once enquiring what steps, if any, have been taken by Government to introduce the provisions of the Bengal (Rural) Primary Education Act, 1930. Other questions connected with primary education were (i) Government sanction to the introduction of compulsory and free primary education in Ward No. IX by the Calcutta Corporation which, it was stated, would be communicated shortly, and (ii) direct grants to non-Government primary schools and to local bodies for primary education. With regard to secondary education enquiries were few and almost local in character, e.g.; number of high English and middle English schools in receipt of Government aid in the district of Bankura; construction of a new building for the R. K. Zilla School, Noakhali. One member desired to know *inter alia* the number of schools and colleges controlled by the Board of Intermediate and Secondary Education, Dacca, and the reasons for the maintenance of a whole-time Chairman for the Board. As regards collegiate education the request for information was practically limited to the method of filling vacancies in the staff of certain Government arts colleges, and the number of teaching hours of the Professors and Lecturers. One member enquired whether it was realised by Government that with the passing of the Bengal (Rural) Primary Education Act, 1930, it has become necessary to increase the number of trained women teachers in the province, and was informed that it was impossible to expand the facilities for training, till the financial position improved. In connection with text-books an enquiry was made as to what reasons there are for the Text-Book Committee to adhere strictly to the number-bar prescribed. Regarding the education of Muhammadans enquiries were made to ascertain the number of Moslem students enjoying scholarships, stipends, free and half-free studentships at the Presidency College and the decision arrived at by Government in regard to the question of the establishment of a high school for Moslem girls in Calcutta besides the nature of hostel accommodation provided for Moslem post-graduate students in the city. A request was also made for information showing the number and qualifications of students belonging to depressed classes, who were admitted to training colleges during the last three years.

**Resolution on the Report on the
Administration of the Jail Depart-
ment of the Presidency of Bengal
for the year 1933.**

GOVERNMENT OF BENGAL.

Political Department.

Jails.

CALCUTTA, THE 16TH JUNE 1934.

RESOLUTION—No. 1857 P.J.

Read—

The Report on the Administration of the Jail Department of the Presidency of Bengal for the year 1933.

Read also—

The reports for the years 1930, 1931 and 1932 and the resolutions of Government thereon.

1. During 1933 the population of civil disobedience prisoners fell from 1,202 at the beginning to 371 at the end of the year. Unfortunately the decrease of civil disobedience prisoners was not accompanied by any corresponding decrease of ordinary prisoners with the result that the pressure on the jail accommodation was not relieved as much as might have been expected. The average daily strength during the year was 21,405·39 against 22,618·23 in the previous year, so that it was again nearly 50 per cent, in excess of the normal figure before the civil disobedience movement of 1930 began. The prison population at the end of the year was actually greater than at the corresponding period of the previous year, being 20,659 against 20,497. Economic conditions no doubt contributed in a large measure to this result, but the spirit of lawlessness aroused by the civil disobedience movement must be held also to have had its effect.

It was, therefore, possible to close only one of the five special jails, and comparatively little saving could be effected, in the cost of guarding and

maintaining prisoners. The cost during the year was, it is true, over 2½ lakhs of rupees less than in the previous year but almost the whole of this is accounted for by the fall of expenditure on dietary charges due to the drop in food prices.

2. The number of terrorist convicts, which at the beginning of the year was 225, stood at its close at 438, and this after 88 had been removed to the Andamans. The total number of such convicts admitted to prison during the year was no less than 741, an unwelcome reminder of the grip that terrorism has gained on the youth of the country. The increase in this dangerous class of prisoner has greatly complicated jail administration, for in order to prevent the contamination of other prisoners, and the hatching of plots to commit further outrages it is essential that the terrorist convicts should be segregated not only from ordinary prisoners, and especially adolescents, but also from one another during those hours in which they are not engaged in labour. The question of providing more cellular accommodation which has always been inadequate, has therefore become a matter of urgency. During the year under review it was found necessary to construct 20 extra cells in one of the central jails for the segregation of terrorist prisoners at a cost of Rs. 19,700 and the department has since been compelled to take up the question of providing additional cellular accommodation in two other central jails.

During the year under review 88 terrorist prisoners were transported to the cellular jail at Port Blair, three of whom were subsequently repatriated on medical grounds. The re-opening of this jail has eased the question of guarding and segregating terrorist prisoners in Bengal jails, but has by no means solved the problem, as many terrorist prisoners are ineligible for transportation, either because their sentences are of shorter duration than five years or for medical reasons.

3. The cessation of civil disobedience led to a gratifying fall in the number of juvenile and adolescent prisoners admitted to jail during the year, the percentage of prisoners under 16 having fallen from 0·84 to 0·35, of prisoners between 16 and 18 from 7·42 to 4·23, and of prisoners between 19 and 21 from 12·76 to 9·58. There was also a

substantial decrease in the number of female prisoners, though the number of admissions was still double the normal figure.

4. The Governor in Council regrets to notice that, while the number of juvenile prisoners is still abnormally high, the population of the Borstal School, Bankura, has shown a steady decline since 1930, the inmates numbering only 171 at the end of 1933 as compared with 373 at the end of 1930. It is difficult to resist the conclusion that Magistrates are sentencing boys to short terms of imprisonment and subjecting them to the obvious risks of a prison environment instead of giving them the opportunity of going through the useful and reformatory training afforded by the Borstal system. It is possible that Magistrates are apt, through ignorance of the nature and purpose of detention in the Borstal School—the minimum period of which is 2 years—to think of it in terms of imprisonment in a jail. This is of course a serious error, for there is no comparison between the two forms of detention, and it should be remembered that the essence of the Borstal system is to give a training of permanent value which cannot be given in a short period, and that the Borstal School at Bankura is essentially a *school* from which the prison atmosphere is absent, and of which the chief object is to instil into the boys a spirit of honour, self-respect and sportsmanship. The Governor in Council attaches great importance to a proper utilisation of the possibilities of detention in a Borstal School as a means of reclaiming young persons who have not gone far in crime and whose age renders them susceptible to good influences, and the attention of the magistracy will be drawn to the importance of making more use of this valuable institution in the future.

5. The Advisory Boards appointed to report on the premature release of certain classes of non-habitual prisoners examined the records of no less than 403 cases during the year. They were able to recommend the release of 294 well-behaved prisoners against 164 in the previous year and Government accepted the recommendations of the Boards in 293 cases. The system of examining the records of prisoners with a view to the premature release of those who have shown signs of reform was introduced ten years ago as an experimental

measure and has fully justified expectations. It has exercised a healthy influence on the conduct of prisoners and led to appreciable economy in jail administration.

6. For some years past His Excellency in Council has been constrained to comment unfavourably on the long detention of undertrial prisoners, and the increase in the number of short-term sentences. During the year under review there was an encouraging fall in the period of detention of undertrial prisoners, particularly in sessions case, the average period of detention being 47·47 days in sessions cases, and 22·62 days in other cases, against 56·47 and 23·02, respectively, in the previous year. His Excellency in Council is, however, much concerned to notice that the number of short-term sentences of less than one month increased from 9,166 in 1932 to no less than 10,714 in 1933, and is now more than 60 per cent. higher than the number imposed in 1929. As the Inspector-General points out in his report, such sentences are not deterrent, and cannot be reformatory. Their only effect is in fact to bring the chance offender into contact with criminals whose influence may well lead the victim to embark on a career of crime. His Excellency in Council attaches importance to this matter, and trusts that inspecting officers will pay special attention to it during their inspections of Magistrates' Courts.

7. There was a substantial fall in the number of punishments inflicted upon warders during the year, and a satisfactory indication as to the state of discipline is to be found in the fact that only 49 warders were dismissed as against 99 in the previous year. During recent years the conditions of service of the warder staff have been improved by an increase in pay, and the provision of leave and training reserves, and these improvements have done much to add to the contentment of the force. It is recognised, however, that much remains to be done, one of the most urgent needs being the provision of married quarters, a project which has been held up for a number of years for want of funds.

8. The Governor in Council is pleased to note that the total number of offences committed by convicts during the year decreased by 2,492 or 16 per cent. as compared with the previous year, there being an appreciable decline

under "offences relating to work" and "all other breaches of discipline", but a slight rise under "prohibited articles" and "assaults, mutinies and escapes."

9. The continued slump in trade had its effect on the jail manufactory departments though to a less extent than in the two previous years. It is satisfactory that the total net earnings for the year exceeded those for the year 1932 by over Rs. 20,000, and that the removal of the Jail Depot from Free School Street to Writers' Buildings during the year, as recommended by the Retrenchment Committee, resulted in a net profit of Rs. 4,051 against a net loss of Rs. 659 in the previous year.

10. The health of the jail population remained satisfactory throughout the year. There was a fall of 5.75 per mille in the number of sick, while the death rate was 10.8 per mille against 10.52 of the previous year. The consistency with which the death and sick rates have been maintained at such low figures despite a 50 per cent. increase in the jail population is a testimony to the care and attention paid to the health of prisoners, and His Excellency in Council considers that the medical staff of the department are to be congratulated on the way in which they have not only maintained but improved the standard of health under the trying conditions of recent years.

11. Financial stringency again stood in the way of effect being given to numerous schemes which have been drawn up during the past few years for improving the jail administration. Among these are schemes for relieving congestion by the building of another central jail, for providing more cellular accommodation, and married quarters for warders and for the introduction of a scheme of primary education for adolescents in the

central jails. It is most regrettable that these schemes have had to be held up and it is to be hoped that some progress will be possible in the near future.

12. It will be apparent from the remarks in the foregoing paragraphs that the conditions in the jails are still far from being normal. The high average of the daily population, combined with the intractability of a substantial proportion of the convicts, renders jail management a difficult problem and great credit is due to the jail staffs for the way in which they have carried out their irksome and difficult duties. His Excellency in Council has read with pleasure the names of those officers whose good work has earned for them the distinction of being mentioned in the Inspector-General's report, and he also desires to express his satisfaction with the manner in which Lieutenant-Colonel Flowerdew himself has administered his department.

Order.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information and guidance.

Ordered that a copy of the report be submitted to the Government of India in the Home Department.

Ordered that a copy of this resolution be forwarded to the Judicial Department of this Government for information.

Ordered also that the resolution be published in the *Calcutta Gazette*.

S. N. ROY,

Addl. Secy. to the Govt. of Bengal.
